Advanced Phonics Patterns
From Children’s Books

Instructions

1. Introduce one new pattern at a time, following the order in which they are introduced in *Advanced Phonics Patterns From Children’s Books*. Show the new card, model the sound or sounds, and have each student repeat individually.

2. Teachers can use the cards that show each phonogram and key word as a pronunciation guide.

3. There are 58 cards, which show a variety of phonics patterns and ending syllable patterns.

4. A few of the patterns at this level are also included in the phonics patterns level.

5. Show all of the cards that have been taught, in order. Students say the sounds in unison. Students say the sounds only (no key words) while looking at the cards.

6. Choose just the most recent cards and any other cards that are still difficult for the students. Say each sound without showing the card. Students repeat the sound and write the pattern on lined paper. Then show the card so that students can correct if needed.
