Sound City Reading

The Story Of The Umbrella Vowels

One day all of the vowels, a, e, i, o, and u, went for a walk. As they walked, it started to rain. The letter u always carried his umbrella, because the word umbrella begins with the letter u's short vowel sound. He put up his umbrella, which was very large, to keep himself dry. The other vowels did not bring their umbrellas. As the rain fell on them, they asked the letter u if they could get under his umbrella, too. The letter u said that they could, IF they would promise to say his "short u" sound (u as in umbrella) instead of their own sounds whenever they appeared in words. The other vowels were very sad, because they each had their own sound and didn't want to give them up. Soon the rain poured down even harder. "PLEASE let us get under your umbrella," they said. "We want to keep our own sounds, but we promise that in some words we will always say your sound." The letter u agreed and they all crowded under the umbrella as they walked home. And that's why the other vowels say the "uh" sound in some words to this very day.

Patterns To Study - Start Here

The patterns should be taught in order. Most patterns are new, but some were taught in *Phonetic Words And Stories, Books 1-8*. Studying one or more new patterns prepares students to read a new book. **When students are ready to read a new picture book, it is listed in this table of contents.** All the phonetic words in the book will contain phonics patterns that have been taught. If it is not possible to obtain the books, you can use any age appropriate reading materials at the students' instructional level, however in this case, be aware that students will encounter some words with patterns they have not yet learned. In this case, any words with unfamiliar patterns should be introduced by the teacher.

Overview of Sound City Reading materials	Back Cover

Children's Books

The phonics instruction in Sound City Reading is designed to prepare students to read the books on the following list to practice their newly learned reading skills. Books are listed in the order in which they can be read. Parents or teachers may want to read the stories aloud to the student first. Becoming familiar with the vocabulary and sentence structure ahead of time makes it easier for students to use their word analysis skills to read the story. Of course, the overall goal is for students to receive the preparation needed to read any appropriate book at the elementary level.

Accelerated Reader levels are given for most of the books to give a general idea of the reading level. The levels range from 0.9 to 4.7, in other words, from the ninth month of kindergarten through the seventh month of fourth grade. The Accelerated Reader Program, often purchased by schools, provides short on-line comprehension tests in the classroom for many children's books. You'll notice that the order in which the books are read is not directly related to the AR reading level. If you are using the Sound City Reading program, students will have studied all of the phonics patterns found in each book before they read it. The general progression of the books, however, is from easier to more advanced.

Booklets To Read With *Phonetic Words And Stories, Books 1-4*

The following *Simple Short Vowel Stories* are in *Phonics Fundamentals Volume 2* by Joy Evans (Evan-Moor Corporations, 1994). The book is out of print, but is available in limited quantities at <http://www.amazon.com/gp/product/1557993076>. Permission is granted by the publisher to reproduce the stories for non-commercial individual or classroom use. These simple short vowel stories about Bob and his dog Sam are perfect for students who are just starting to read. They have a small amount of text and an illustration on each page.

<i>Sam</i> (4 pages)	<i>Bob</i> (4 pages)	<i>Bob and Sam</i> (4 pages)
<i>The Van</i> (4 pages)	<i>Bob Helps</i> (4 pages)	<i>Camp</i> (4 pages)
<i>At the Pond</i> (4 pages)	<i>The Bath</i> (8 pages)	<i>Pam's Pet</i> (8 pages)
<i>Sam's Trick</i> (8 pages)	<i>Sam and Gus</i> (8 pages)	<i>A Bone for Sam</i> (8 pages)

Books To Read With *Phonetic Words And Stories, Books 5-8*

The following easy books for beginners are available in book stores and libraries. These books use the most common words in our language, put together to form high interest stories. Many of the books are rhythmic and rhyming, with a repetitive sentence structure and big print, perfect for beginning readers.

1. *The Foot Book* by Dr. Seuss (Random House, 1968) AR Level 0.6
2. *Green Eggs and Ham* by Dr. Seuss (Random House, 1960) AR Level 1.5
3. *Brown Bear, Brown Bear, What Do You See?* by Bill Martin Jr., illustrated by Eric Carle (Henry Holt and Company, 1967) AR Level 2.1
4. *Ten Apples Up On Top!* by Theo. LeSieg, illustrated by Roy McKie (Random House, 1961) AR Level 1.0
5. *Put Me In The Zoo* by Robert Lopshire (Random House, 1960) AR Level 1.4
6. *Go, Dog. Go!* by P. D. Eastman (Random House, 1961) AR Level 1.2
7. *Hop on Pop* by Dr. Seuss (Random House, 1963) AR Level 1.5
8. *Are You My Mother?* by P. D. Eastman (Random House, 1960) AR Level 1.6
9. *The Cat In The Hat* by Dr. Seuss (Random House, 1957) AR Level 2.1
10. *The Wind Blew* by Pat Hutchins (Scholastic, 1974) AR Level 2.9
11. *In The Small, Small Pond* by Denise Fleming (Scholastic Inc., 1993) AR Level 2.0

Children's Books

Books To Read With *Advanced Phonics Patterns From Children's Books*

1. *One Fish Two Fish Red Fish Blue Fish* by Dr. Seuss (Random House, 1960) AR level 1.7

Notes For The Teacher

Before beginning this book, students should be reading easy material comfortably and should be familiar with many of the common phonetic patterns. If needed, the Sound City Reading materials listed on the back cover of this book will teach the necessary letter patterns and words so that students will be ready for the advanced letter patterns taught in this book.

The phonetic patterns in this book are taught in a sequential order to prepare students to read the listed children's books. However, there are separate sections at the end of this book in which syllable patterns, advanced ending syllables, and advanced consonant patterns are grouped together for extra practice.

Each new pattern or group of patterns studied will prepare the student to read a new book. In general, the books near the beginning of the list are easier to read than those near the end of the list.

Plan to study one new pattern per day. The patterns taught include phonogram patterns (phonics patterns), ending syllables, prefixes, and suffixes. After being introduced to a new pattern, students practice reading the words and sentences in this book. After studying several new patterns students will be ready to read the listed trade book. Each trade book contains only the phonetic patterns that have been taught, which makes it easier for students to read.

The patterns dge, ou/country, ph, ugh, ye, y_e, y/gymnastics, qua, and squa have been added to the newest version of *Phonics Patterns For Beginning Readers, Book 8*. They are repeated in this book.

Sound Story And Sound Charts

A *Sound Story* is included in this book. It uses pictures to illustrate each sound in our language. It is followed by charts showing the sounds for the letters of the alphabet, the various vowel sounds, and the consonant digraph sounds. The teacher should read the sound story to the students so that they will be familiar with the sound pictures and the sounds they represent. Every day, the teacher should choose several charts to review. Point to each letter pattern on the charts and have students say the sounds or sounds and key words in unison. The charts show patterns arranged in logical groups, making it easier for students to see the overall phonetic structure of the English language. Daily practice provides the overlearning needed for students to be able to remember the patterns and apply them when reading and spelling new words. A larger version of the sound story and large wall charts are available from Sound City Reading; these can be used when working in a classroom.

A Summary Sound Chart follows the other charts. It shows all of the letter patterns that can be used to represent each sound. For example, the a/apron sound can be represented by ai/rain, ay/play, and a_e/safe. It is not

necessary to go over this chart daily. It is helpful for students to go over this chart occasionally and become familiar with it.

Sound Cards

The teacher should write each new pattern on a large index card, show the card, and model the sound when it is introduced. (A set of phonogram cards can be printed from the www.soundcityreading.net.) Each student should look at the new card and say the related sound, taking turns, one at a time. If the pattern has more than one sound, each sound should be given, one after the other, with a slight pause in between. Each new card is added to the previously taught cards, creating a card pack. The teacher should go through the card pack daily. The students look at the patterns and give the sounds in unison.

Studying New Words - Overview

For most patterns, there are twelve new words to study. As far as possible, words have been selected that will be familiar to the students. However some patterns are found in a limited number of words, and many of these will not be in the students' speaking vocabulary. In addition, many of the words with the advanced patterns are multi-syllable words, which are harder to decode. It is difficult for a students to predict which syllables are stressed and unstressed, which affects the vowel sounds, in an unfamiliar word. For this reason, the lists should be introduced in a structured way.

First students should hear the teacher model the pronunciation of the words. Then they will discuss the meaning of each word. They will also work with the teacher to analyze the phonetic elements in the word, syllable by syllable. Then they will be ready to read the words.

The teacher will need a good dictionary to look up the meanings and pronunciations of unfamiliar words. Dictionary.com and Merriam-Webster have online dictionary apps that can be downloaded onto a smart phone. These are helpful as a quick reference. You can type in a word, see the definition, and click on a speaker symbol to hear how the word is pronounced.

Studying New Words - Suggested Steps

Write the list of words on the board, or show a copy of the page from this book on an overhead projector. The teacher will point to and mark these words one at a time. Students will watch and mark the words in their books in the same way.

The following steps are for just one word. Repeat the steps for each word on the list. After students become familiar with the routine, the sequence should go quickly. It takes less time to do the steps than to read them.

Many of the words are multi-syllable words, some words have sections that break the rules, and some words will be unfamiliar to students. It is important for students to hear each word pronounced correctly before they begin to analyze it. This prevents students from decoding any words incorrectly the first time they try to read them, creating the wrong first impression. The secret to student interest and involvement during this process is to call on them to tell you what to do, instead of just showing them what to do.

- 1) The teacher points to a word and pronounces it clearly. Students look at the word and pronounce it in unison.
- 2) Students say the syllables for the word in unison, clapping for each syllable. The teacher calls on a student to explain to the class where to divide between the syllables. Sometimes the teacher asks the student to explain his or her reasoning.
- 3) The students put lines on their papers to divide between the syllables. One good way to divide is shown in the words below. This method clearly separates the syllables and cannot be mistaken for the letter l. Then the teacher divides the word correctly on the board. Students check their work and correct it if they have divided in the wrong place.

basket

fantastic

- 4) The teacher points to one syllable at a time. Students pronounce each syllable in unison as they copy it onto lined paper.
- 5) The teacher says, "Do we need to mark anything in this word?" Give support as needed to help students arrive at the correct answer. The teacher marks the word on the board as the students explain what to mark. Students watch and mark the word in the same way on their papers. Put a straight line over single long vowels, put two dots over vowels as needed. (Examples: rō/tate, tō/night, āl/ways) Underline vowel patterns with two or more letters. (Examples: rain, card, should.)
- 6) Students look at the marked word and pronounce it slowly, one syllable at a time, in unison. Then they repeat the word at regular speed.
- 7) The teacher says, "Does anyone know the meaning of this word?" Call on students to answer. Look it up in a dictionary if necessary.
- 8) After completing the words, the teacher asks students to find each word, given its meaning. For example, say to the students, "Find the word that means a baby sheep. (lamb) Find the word that is a part of your hand. (thumb). What do you do to your hair to make it neat? (comb) Who installs and repairs the water pipes in buildings? (plumber) Call on students to find and pronounce the words. The whole class points to the word in their book and repeats.

- 9) On some days, instead of doing step eight, do this instead. The teacher chooses a word at random and segments the word out loud into its separate sounds or syllables. For example, for the word *lamb*, the teacher would say l.....a.....mb. For the word *information*, the teacher would say in.....for.....ma.....tion. The student must scan the words on the list and find the word that matches the sounds pronounced by the teacher. Then the student points to the word, pronounces it clearly, and waits for the class to repeat the word in unison.
- 10) Students take turns reading the sentences. If desired, they can reread the sentences in unison.

How To Divide The Words Into Syllables

- 1) Look for the vowels. Look at the consonants between the vowels. Divide between two consonants that are alike.

pup/pet rab/bit com/mon

- 2) Look for the vowels. Look at the consonants between the vowels. Divide between two consonant that are different.

bas/ket hel/met sub/ject

- 3) Look for the vowels. Look for a single consonant between the vowels. If the first vowel has the short vowel sound, divide after the consonant.

cam/el rob/in med/al vis/it up/on

If the first vowel has the long vowel sound, divide after the first vowel.

re/lax ra/ven o/pen li/lac tu/lip

- 4) Usually two adjacent vowels stay together.

treat/ment re/peat sail/or

- 5) Sometimes two adjacent vowels are in different syllables and represent two different sounds. Divide between the vowels.

ru / in i/de/a cre/ate ster/e/o

- 6) There are many patterns in which the letters work together as an ending syllables. Keep the letters together. Divide before the pattern.

na/tion mis/sion fu/ture lit/tle

- 7) In words with an r-controlled or “bossy r” pattern, keep the vowel and the letter *r* together.

tar/get jour/nal cel/lar pur/pose but/ter

- 9) For most suffixes, divide between the word and the suffix.

land/ed sing/ing hope/ful help/less

Exceptions: runs rained peeled

- 10) When in doubt, listen carefully to the word as you pronounce it. Clap the syllables. Can you hear where the word is separated? If necessary, look up the word in the dictionary. It will show the word divided into syllables. Merriam-Webster has a phone app dictionary that shows the divisions between the syllables.

How To Mark The Words

- 1) Draw lines to divide each word into syllables.

pup/pet cab/in in/struc/tion clear/ly

- 2) Mark single long vowels with a straight line.

sē/cret rō/bot mū/sic hip/pō zē / bŭ

- 3) Draw an umbrella over the letters *a* or *o* in words if they have the short u sound.

☂ won/der ☂ a/way pan/☂da ☂ com/pass

- 4) Mark dotted vowels with two dots.

tö/day äl/ways sur/vëy kï/wï püd/ding

- 5) Put a small x above any silent letters.

lis/^xten plumb^x/er ^xhon/est tum / bl^xe

- 6) For any letters that do not represent their usual sound, write a small letter above them, to show the correct sound.

^ofa/ther ^scel/er/y ^jgen/tle ^zxan/thin ^{sh}sure

- 7) Draw a curved line below vowels in unaccented syllables, to show that the vowels are hardly pronounced. The line starts at the consonant just before the vowel, and ends at the consonant just after the vowel. This type of vowel sound is called the schwa sound.

com/bine ran/som ped/al can/al

- 8) In some multi-syllable words, unstressed syllables end with a vowel. Instead of a long vowel sound, these vowels have the “schwa” sound. They are hardly heard at all. Mark the schwa sound with a curved arrow.

com/pli/ment del/e/gate el/o/quent

- 9) The vowels in some accented open syllables represent the short vowel sound. Mark these vowels with an asterisk.

spe* / cial of / fi* / cial mū / si* / cian ma / gi* / cian

- 10) Underline multi-letter vowel patterns. Mark vowel-consonant-e patterns as shown.

rain night form small should state

Before students mark each word in their books, the teacher should call on a student to explain how to mark the word. As the student tells what to mark, the teacher should model the markings on the words written on the board, or on a copy of the word list displayed on an overhead projector. Then students should mark the word.

Understanding The Symbols

This broken ruler shows that a letter pattern is a “rule breaker.” It doesn’t represent the sound that you would expect.

This pair of glasses indicates that a word is a sight word. Some of the letters or letter patterns in the word do not represent the usual sound.

An x placed above a letter tells you that the letter is not pronounced in a word or letter pattern. It is “silent.”

When you see this arrow going under a vowel in a word, go directly from the preceding consonant to the following consonant, skipping the vowel sound. The vowel does not have its regular sound. It is hardly pronounced at all.

Two dots over a vowel means “not the usual sound.”

Decoding One Syllable And Multi-Syllable Words From The Board

On a white board or chalk board, write mixed lists of words with patterns that have already been taught. When working with a new pattern, use that pattern only. For review patterns, first try two different patterns. Then work up to three or more patterns. This is a good way to review patterns with multiple sounds, for example ea/eat, ea/head, and ea/steak. You can also mix words in which different letters represent the same sounds, as in s/sun, ce/cent, ci/city, and cy/cyle.

Have students take turns coming to the board. They should divide the word into syllables, mark it as needed, and pronounce it.

You may want to write the vowel patterns from the words across the top of the board and review them before starting.

Introducing Words With Advanced Ending Syllables

You can do this activity when introducing words with ending syllables (tion, ture, etc.). Write the ending syllables on blank index cards ahead of time. Select the syllable you are going to introduce. Write the beginnings of the words on the board before the class arrives, leaving a space between syllables. Do not write the ending syllables. Make the print on the board match the size of the print on the ending syllables card.

To do the activity, show the card, model the sound, and make any explanations as needed. Then call on students to come to the board one at a time. Each student reads the first syllable or syllables from the board for each word. Quickly place the card at the end of the word. The student pronounces the ending syllable, then pronounces the whole word. The whole class repeats. Assist as needed.

Finish the lesson by moving the ending syllable card down the column of beginning syllables and have students pronounce the words created in unison.

Follow-Up Activities

The teacher may want to have the students do some type of independent activity with the word lists and sentences after the daily instructional period. Some ideas are listed below.

- 1) Copy the words.
- 2) Illustrate selected words.
- 3) Copy and illustrate one or more of the sentences.
- 4) Write new sentences with one or more of the words.
- 5) Write definitions for some of the words.
- 6) Write an essay, story, poem, or song using as many words from the

- word list as possible.
- 7) Write an essay or story that contains one of the sentences from this book. In other words, elaborate on one of the sentences to create a story.
 - 8) Choose one word from a word list as a topic or theme, and write an essay or story related to that topic.
 - 9) Draw a scene which contains pictures of several of the words from a word list. Label the items. Example: A plumber climbs a hill to a farmhouse, carrying his tool box. He has a comb in his pocket. A lamb stands beneath the limbs of a nearby tree.
 - 10) Write the words in alphabetical order.
 - 11) Find as many rhyming words as possible.
 - 12) Sort the words by parts of speech; put all the nouns together, all the verbs, etc. Or sort the words into other types of groups - transportation, places, people, etc.

Advanced Ending Consonant Blends

As students begin to read more advanced books, they will encounter words with advanced ending blends in the text. This includes words such as *grasp*, *sulk*, and *strict*. Take a little time to study the advanced consonant blends truck charts. Students should practice pronouncing the ending blends by saying the sound combinations on the charts. During the first lessons model the pronunciation of each blend and have students repeat. Have students read the pages with ending consonant blends and spell some of the word from dictation.

Using The Companion Volume: *Know The Phonetic Code*

As students continue to study one new pattern per day, they may need to review the patterns they have already learned. You may use the companion volume *Know The Phonetic Code* for this purpose. It contains word lists for all of the patterns studied in the whole Sound City Reading series, beginning with short vowel words. All of the basic vowel patterns, consonant patterns, and syllable patterns are reviewed in the same order in which they are taught in the *Phonetic Words And Stories* books. Each page teaches words with anew pattern, including both one syllable and two-syllable words, where applicable. There are also separate word lists to teach the advanced ending syllables, advanced consonant patterns, prefixes, suffixes, and contractions.

There are two versions of *Know The Phonetic Code*. One version is a single book that contains just word lists. The second version is a series of three books which contain the same word lists and also short phonetic practice stories. These are the same stories found in the *Phonetic Words And Stories* books.

Reading The Children's Books

The teaching outline shows which book or books to read after studying new phonogram patterns, prefixes, or suffixes. If you follow the sequence chart, students should be able to decode all of the words in each book. Remember that they will sometimes need support remembering the various sounds and syllable patterns. It is wise to pre-teach unfamiliar words as vocabulary words before beginning a new book. Write each word on the board, pronounce it, divide it into syllables and mark it, and explain its meaning. Have students read the word and take turns using it in a sentence.

The teacher can structure reading from the books in a variety of ways. Choose the approaches that work the best for your group of students.

- 1) The teacher reads the story aloud, introduces new vocabulary words from the story, and asks oral comprehension questions.
- 2) The teacher rereads the story aloud, one sentence, paragraph, or page at a time. The class follows in their books, and then rereads the section in unison.
- 3) Students take turns reading pages of the story in a small group with the teacher. The teacher assists as needed.
- 4) Students take turns reading the story aloud with a partner.
- 5) Students reread the story independently. Students who need help at this step can follow the text while listening to the story on tape.

The teacher may want to prepare comprehension questions for the students to answer on paper. The teacher can also assign creative writing, story mapping, or art activities related to the book being read.

What If You Don't Have Multiple Copies Of The Children's Picture Books?

You can use this program with any reading series or materials that you have available. In this case, you can't be sure that all the words in each story are decodable. Assist the students with words that have patterns that have not yet been introduced.

If you have just one copy of each of the children's picture books, you can read the book aloud to the class, and then have students take turns reading the single in small groups, passing the book from one student to the next. You can then place the book in a specific area of the class library. Students can take turns reading the book independently, either independently during silent reading time or during a period set aside for reading with a partner.

A Sound Story

About Audrey and Brad

Part 1

One Saturday morning, Audrey and Brad sat in the den, watching the pendulum swing back and forth on the clock on the wall, “t, t, t, t.” They were bored.

T t

Hey, Mom,” said Brad. “Can we walk down to the park?” “Yes,” said Mom. “But we must be back in time for your violin lessons.” Soon Audrey and Brad were swinging as high as they could at the park. They could hear the loud sound of the chains screeching as they went back and forth, “i, i, i, i.” (i/in)

I i

Then they jumped down and ran around the park playing chase. Before long, they were out of breath. Brad could hear himself breathing hard, “h, h, h, h.”

H h

They all walked home and Mom drove them to their violin lessons. Mrs. Russ was pleased to see them. “Did you practice every day?” she said. “I did,” said Audrey quickly. Brad replied that he had practiced, too. (i/island)

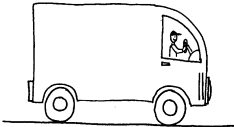

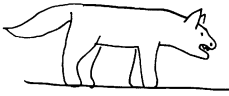

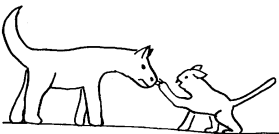

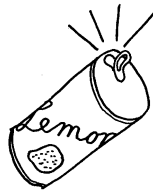

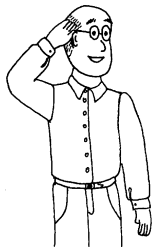

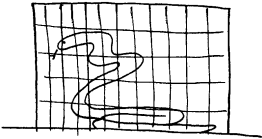

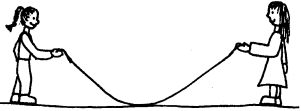

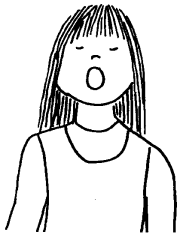

ī ī

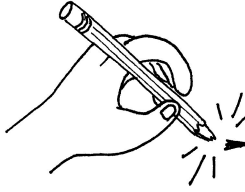

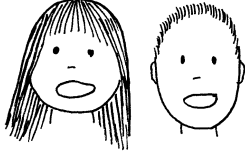

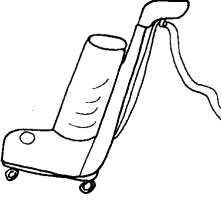

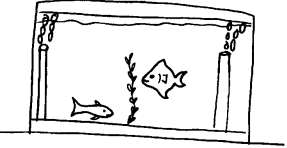

Soon they were playing music. Each violin made a beautiful sound as they pulled their bows across the strings. The sound was “l, l, l, l, l.”

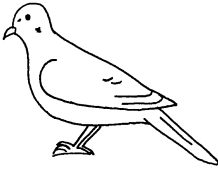

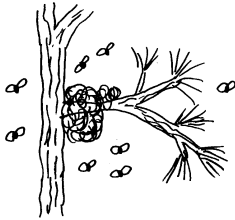

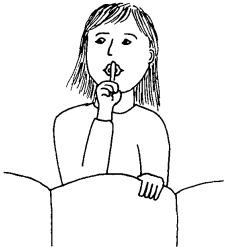

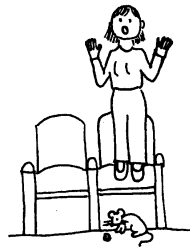

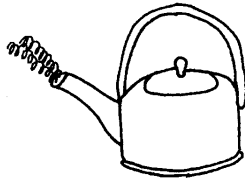

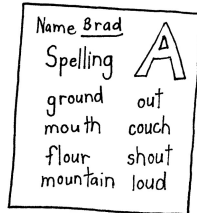

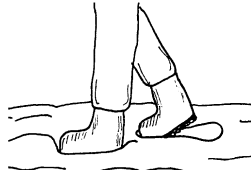

L l

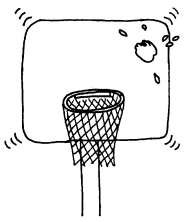

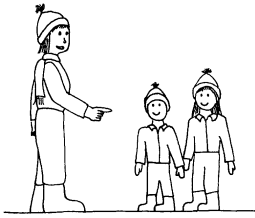

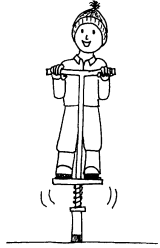

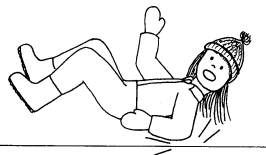

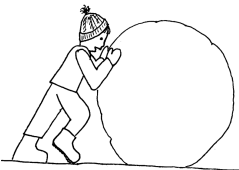

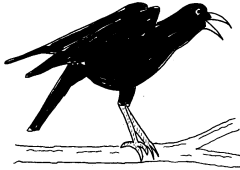

<p>Just as they arrived home from their music lesson, they heard the “n, n, n” sound of the engine on a big delivery truck. It pulled into their driveway and the delivery man handed Mom a package. Audrey and Brad were pleased to see that new books had arrived from their book club.</p>		<p>N n</p>
<p>As they went into the house, they could see dark clouds gathering overhead. Soon, lightning was flashing and rain was pouring down. The wind blew hard enough to make the branches on the trees sway back and forth. Audrey and Brad could hear the sound of the wind forcing it's way into the house around the front door, “wwwwww.”</p>		<p>W w</p>
<p>“Well,” said Mom. “The weather is so bad, this is the perfect time to go over your math facts.” It was Brad’s turn to go first. “Uuuuhhh,” was all he could say as he looked at the flashcards. He had not been practicing his math facts. When Audrey had her turn, she got every one right. (u/up)</p>		<p>U u</p>
<p>They ate lunch and then Audrey and Brad and Dad got into the car to go to basketball practice. The wind had stopped blowing, but it was still drizzling. At the gym, all the kids on the team warmed up by dribbling a basketball. “B, b, b, b,” was the sound of the balls bouncing on the hardwood floor. Then they practiced passing and shooting.</p>		<p>B b</p>
<p>After basketball practice they went home. Soon, Mom called Audrey and Brad to dinner. “Mmmmmm,” they said when they saw their plates. They were having scrambled eggs, ham, and muffins. It looked delicious.</p>		<p>M m</p>
<p>Just as they sat down to eat, they heard a loud “Rrrrrr” coming from the back yard. They ran to look out the back door. Chewie had cornered a neighborhood cat in the yard. She was growling at the cat.</p>		<p>R r</p>

<p>The cat had no intention of putting up with Chewie. She reached out and scratched Chewie right on the nose, “fffff.” Chewie cried out in pain as the cat quickly jumped over the fence and ran away.</p>		<p>F f</p>
<p>“Poor, Chewie!” said Brad. “She’ll know to leave cats alone, next time.” He reached into the refrigerator and pulled out a soft drink. “Kssss,” was the sound of the air rushing out as he pulled the tab off the can.</p>		<p>X x</p>
<p>After dinner, the whole family watched a movie together. It was pretty good. One character was a man who couldn’t hear very well. He kept saying “Ehh?” whenever someone spoke to him. He couldn’t understand a word they were saying. “That man should get hearing aids,” said Mom. “He could hear much better with them.” (e/egg)</p>		<p>E e</p>
<p>The following Monday morning, Audrey and Brad took the bus to school. As Audrey slipped into her desk, she saw that a classmate had brought a snake to school in a cage. They talked about the snake during science class. It slithered around in its cage, flicking its tongue in and out with a soft “sssss” sound.</p>		<p>S s</p>
<p>Audrey worked hard all morning. After lunch, her class went outside for recess. She enjoyed jumping rope with her friends. The rope made a “j, j, j” sound as it slapped the concrete.</p>		<p>J j</p>
<p>After recess Audrey realized that her throat was hurting. It had been sore all day, but now it was worse. Her teacher sent her to the office to see the school nurse. Audrey opened her mouth wide and said “Ahhh” while the nurse examined her throat. Then the nurse took her temperature. “You don’t have a fever,” said the nurse. “It will be all right for you to go back to class.” (o/ox)</p>		<p>O o</p>

<p>Back in the classroom, Audrey picked up her pencil to begin her afternoon assignment. "Ccc," the lead broke on her pencil as soon as it touched the paper. She reached into her desk to get out another sharpened pencil. It was a good thing she had an extra one.</p>		<p>C c</p>
<p>At 2 o'clock, Audrey heard a knock at the door, "d, d, d." It was her father, Dr. Davis, coming to help students work on the computers in the back of the room. It wasn't Audrey's turn to work on the computers, today, so she smiled at her dad and then continued working on her assignment.</p>		<p>D d</p>
<p>At the end of the day, Audrey and Brad met their bus group in the hall. Their bus teacher waited for their group to be called. As they stepped outside, they could barely see their bus in the distance, already on its way. "AAAAaah!" screamed Audrey and Brad. All the children were upset. "It's OK," said the teacher. "We'll call your parents to come pick you up." (a/ant)</p>		<p>A a</p>
<p>The children waited in the office for their parents. They could hear the sound of the vacuum cleaner as Mrs. Taylor vacuumed the rug, "vvvvv."</p>		<p>V v</p>
<p>Brad was thirsty, so he asked for permission to go to the hall to get a drink of water. He went straight to the water fountain. He turned the handle and leaned over to swallow the gushing water. "G, g, g, g," went the water as it streamed out of the faucet. "G, g, g, g," went his throat as he guzzled the water.</p>		<p>G g</p>
<p>When Mom arrived at school she took them straight to the doctor's office to get Audrey's throat checked. She wanted to be sure it wasn't strep throat. As they waited in the waiting room, they watched the fish swim back and forth in the large aquarium. They could hear the "P, p, p, p" sound of the air pump pushing air into the water.</p>		<p>P p</p>

<p>Audrey looked up when she heard the “k, k, k” sound of the receptionist’s heels stepping across the tile floor. “I need to ask you a question about your insurance,” said Mrs. Kendrick to Audrey’s mother. “Certainly,” said her mother, as she stepped to the office counter (k/kick)</p>		<p>K k</p>
<p>When Audrey’s exam was finished, the doctor said that she didn’t have strep throat after all. Mom was relieved. As Audrey, Brad and Mom returned to their car, Brad accidentally stepped on a piece of yucky bubble gum. “Yyyy,” he said. He tried to scrape it off on the edge of the sidewalk. (y/yo-yo)</p>		<p>Y y</p>
<p>Mom took the kids to the park on the way home. They sat at a picnic table and had a snack that she had packed. It was a pretty day. They could hear a mourning dove cooing in the distance, “coo, coo, coo.”</p>		<p>Qu qu</p>
<p>Suddenly they heard a loud buzzing sound, “zzzzzzz.” They turned to see an enormous swarm of bees moving through the air. It landed in a pine tree near their picnic table. Other bees flew around in the air nearby. “Let’s go home,” they all yelled in unison. And that is exactly what they did.</p>		<p>Z z</p>
<p>Part 2 - Beyond The Alphabet Sounds</p> <p>A few weeks later, Audrey and Brad and mom and dad heard about a great new movie about a boy and his dog. So, they decided to go to the theater. At the theater, someone in front of them started talking on a cell phone. “Shhh,” Mom said, leaning forward in her seat. (sh/ship)</p>		<p>sh</p>
<p>The movie was action packed and very exciting. Before they knew it, the movie was over. They were the last people to leave the theater. As they walked along the rows, they heard a squeaking sound, “eee, eee, eee.” It was a tiny mouse scurrying along the floor under the seats. He was collecting dropped pieces of popcorn. (e/emu)</p>		<p>e</p>

<p>At first, they didn't see the mouse. Then it ran right by Mom's foot. "Oh!" she exclaimed, jumping up on the nearest seat. "It's a mouse!" Audrey and Brad giggled a little. They were not afraid of a mouse.</p> <p>(o/ocean)</p>		<p>ō</p>
<p>The next morning Audrey and Brad didn't go to school, because it was Saturday. It was cold in the house. Mom got up while it was still dark to boil water for some hot tea. A soft "ttthhhh" sound could be heard as the steam escaped from the tea kettle.</p> <p>(th/thumb)</p>		<p>th</p>
<p>Dad was up early, too. After his shower, he shaved with an electric razor. "Ttthhhh," was the sound that it made as he trimmed off his whiskers.</p> <p>(th/this)</p>		<p>th</p>
<p>Before long, it was light enough to see outside. The sky was overcast, so the sun was covered by the clouds. Audrey sat up in bed and looked out the window. A white blanket of snow covered the ground. "Ooooo," she exclaimed. "It snowed last night!"</p> <p>(o/to)</p>		<p>ö</p>
<p>By this time Mom was calling everyone to come to breakfast. Brad pulled a paper out of his backpack and carried it downstairs. It was his spelling test for the week. He proudly hung it on the refrigerator. At the top of the paper was a large red A.</p> <p>(a/apron)</p>		<p>ā</p>
<p>When they were finished eating, Brad and Audrey got dressed and went outside. Everything was quiet. As they walked down the driveway, their feet crunched in the deep snow. Ch, ch, ch, ch. A few snowflakes were still falling. The whole neighborhood was beautiful.</p> <p>(ch/chicken)</p>		<p>ch</p>

<p>Audrey and Brad decided to have a snowball throwing contest. They took turns throwing the snowballs at the basketball backboard that stood beside the driveway. “Nnnnggg,” went the backboard as Brad’s first snowball hit. “Nnnngg,” it sang out again as Audrey’s snowball hit it, too. (ng/ring)</p>		<p>ng</p>
<p>Dad and Mom came outside to shovel the snow off of the front driveway. They all took turns shoveling the snow. Audrey and Brad worked hard, too. After a long time, the driveway was clear. “You two did a great job,” said Mom. “Thanks for your help.” (u/uniform)</p>		<p>ū</p>
<p>“Hey, now we have room to use our new pogo stick,” said Brad. He ran into the garage and brought it out. He started to jump up and down with it on the driveway. “Oi, oi, oi,” went the coiled spring on the pogo stick as he bounced up and down. (oi/oil, oy/boy)</p>		<p>oi oy</p>
<p>Audrey noticed some icicles hanging down from the front porch. As she reached up to get an icicle, she slipped on the icy concrete and fell. “Ou,” she said in a loud voice as her elbow hit the icy pavement. Brad went to help Audrey up. She stood up carefully and rubbed her arm. She decided to leave the icicles where they were. (ou/ouch, ow/cow)</p>		<p>ou ow</p>
<p>Then Audrey and Brad decided to build a snowman. They rolled up balls of snow for the head and middle part of the snowman. Brad rolled up a huge ball of snow for the bottom of the snowman. He rolled until he couldn’t go any farther. “Uuuhh,” he said as he pushed hard against the giant snowball. “That’s as far as I can go.” (u/bush)</p>		<p>ü</p>
<p>As they finished the snowman, they looked up and saw a large crow sitting in the tree beside their driveway. He flapped his wings and let out a loud “aw, aw, aw, aw” before he flew away. (a/all)</p>		<p>ä</p>

Finally both of the children were worn out. They were tired, cold, and wet from being out in the snow all morning. They went inside and changed into some warm dry clothes. Audrey's mom used the hair dryer to dry her damp hair. "Zzzzhhhh," was the sound of the hair dryer as it blew. (The sound in measure, vision, garage, azure)

After eating peanut butter and jelly sandwiches and apples for lunch, everybody picked out a good book and curled up in front of the wood burning stove in the den to read for a while. They spent a cozy afternoon reading together.

The End

Notes About the Alphabet

The alphabet has twenty-six letters, but the sound story has forty-two pictures. One of the things that makes it difficult to learn to read is that there are more sounds in our language than letters of the alphabet. To compensate for this, some letters are used to represent more than one sound. Other sounds are represented by pairs of letters that give up their original sound to form a totally new sound. It sounds complicated, but here is a short summary of the alphabet sounds. It's really not too hard. Think about how you form the sounds with your mouth as you pronounce each sound.

The alphabet has twenty-one consonants: b, c, d, f, g, h, j, k, l, m, n, p, qu, r, s, t, v, w, x, y, z. Each consonant represents a sound. When you pronounce a consonant sound, you do something with your tongue, throat, or lips to create the sound. For example, when you say the *n* sound, you press your tongue against the roof of your mouth. When you say the *m* sound, you press your lips together.

Two consonant letters, *c* and *k*, represent the very same sound. In this program, each one has its own sound picture, but the sounds are the same.

There are five extra consonant sounds that are designated by pairs of letters, as follows: ch/chicken, sh/ship, th/thumb, th/this, ng/ring.

One more consonant sound does not have a typical letter pattern to represent it. It is the sound you hear in garage, measure, and vision. The dictionary shows this sound as zh.

The other alphabet sounds are called vowel sounds. You pronounce a vowel sound by "opening your throat." You don't put your lips together or touch the inside of your mouth with your tongue to pronounce a vowel sound. You just change the shape of your mouth. For some vowel sounds your mouth is stretched wide, for others, you drop your jaw and

open your mouth wider. For some vowel sounds, you change the position of your mouth as you pronounce the sound.

The alphabet has five vowels: a, e, i, o, u. Each vowel can represent three sounds. The first sound for each vowel shown on the alphabet chart is known as the “short” sound, for no particular reason. The second sound for each vowel is known as the “long” sound. To show a long vowel sound to beginning readers, educators often put a straight line over the vowel like this ā. (Sometimes people use a curved line that looks like a smile, ă, over vowels to show the short sound. I don’t do this because it seems to create more confusion for the student.) The third sound for each vowel is a “special” sound. The special vowels are marked with two dots (an umlaut) above the vowel, to indicate the sound is not the regular sound. Two of the special vowel sounds (ë/ballet and ï/pizza) have sounds that match the long a and long e sounds. Two more special vowel sounds are formed by pairs of vowels: ou/ouch, and oi/oil.

Altogether, we have talked about these sounds: 20 consonant sounds shown with 21 alphabet letters, 5 consonant sounds shown with pairs of consonants, 1 consonant sound without a distinct letter pattern, 5 short vowel sounds, 5 long vowel sounds, and 5 special vowel sounds (of which two repeat long vowel sounds) and two special sounds formed with pairs of vowels. This gives us 41 different sounds, including 26 consonant sounds and 15 vowel sounds.

Note: Everyone does not agree on the exact number of sounds in our language. When you look at different programs, you’ll find that each is a little different.

How to Study the Story and Sound Overview Charts

Read some of the story aloud to the students each day, until you have read the whole story. For more advanced students who have already been exposed to the sound story, read through the sound story to review the sound for each picture. Being familiar with the sound pictures will help the student learn new phonogram patterns and their sounds..

Go over the sound charts at the beginning of each lesson. Look at each letter of the alphabet, each vowel sound, and each consonant pattern. Students should say the sounds or sounds and key words from the charts as the teacher points to each letter or letter pattern. In some cases, there will be more than one letter pattern to represent a sound. In other cases, there will be more than one sound for a single letter pattern. Seeing these relationships on the charts helps students create a mental map of the letters and sounds.

Before Starting This Book

Students should complete *Phonetic Words And Stories, Books 1-8*, before beginning this book. They should be familiar with the phonics patterns, syllable patterns, suffixes, and sight words taught in those books.

Syllable Patterns

A syllable in which a vowel is followed by a consonant is called a closed syllable. In closed syllables, the vowel usually represents its short vowel sound.

A syllable with a vowel at the end is called an open syllable. When a vowel is at the end of a syllable, it usually represents its long vowel sound.

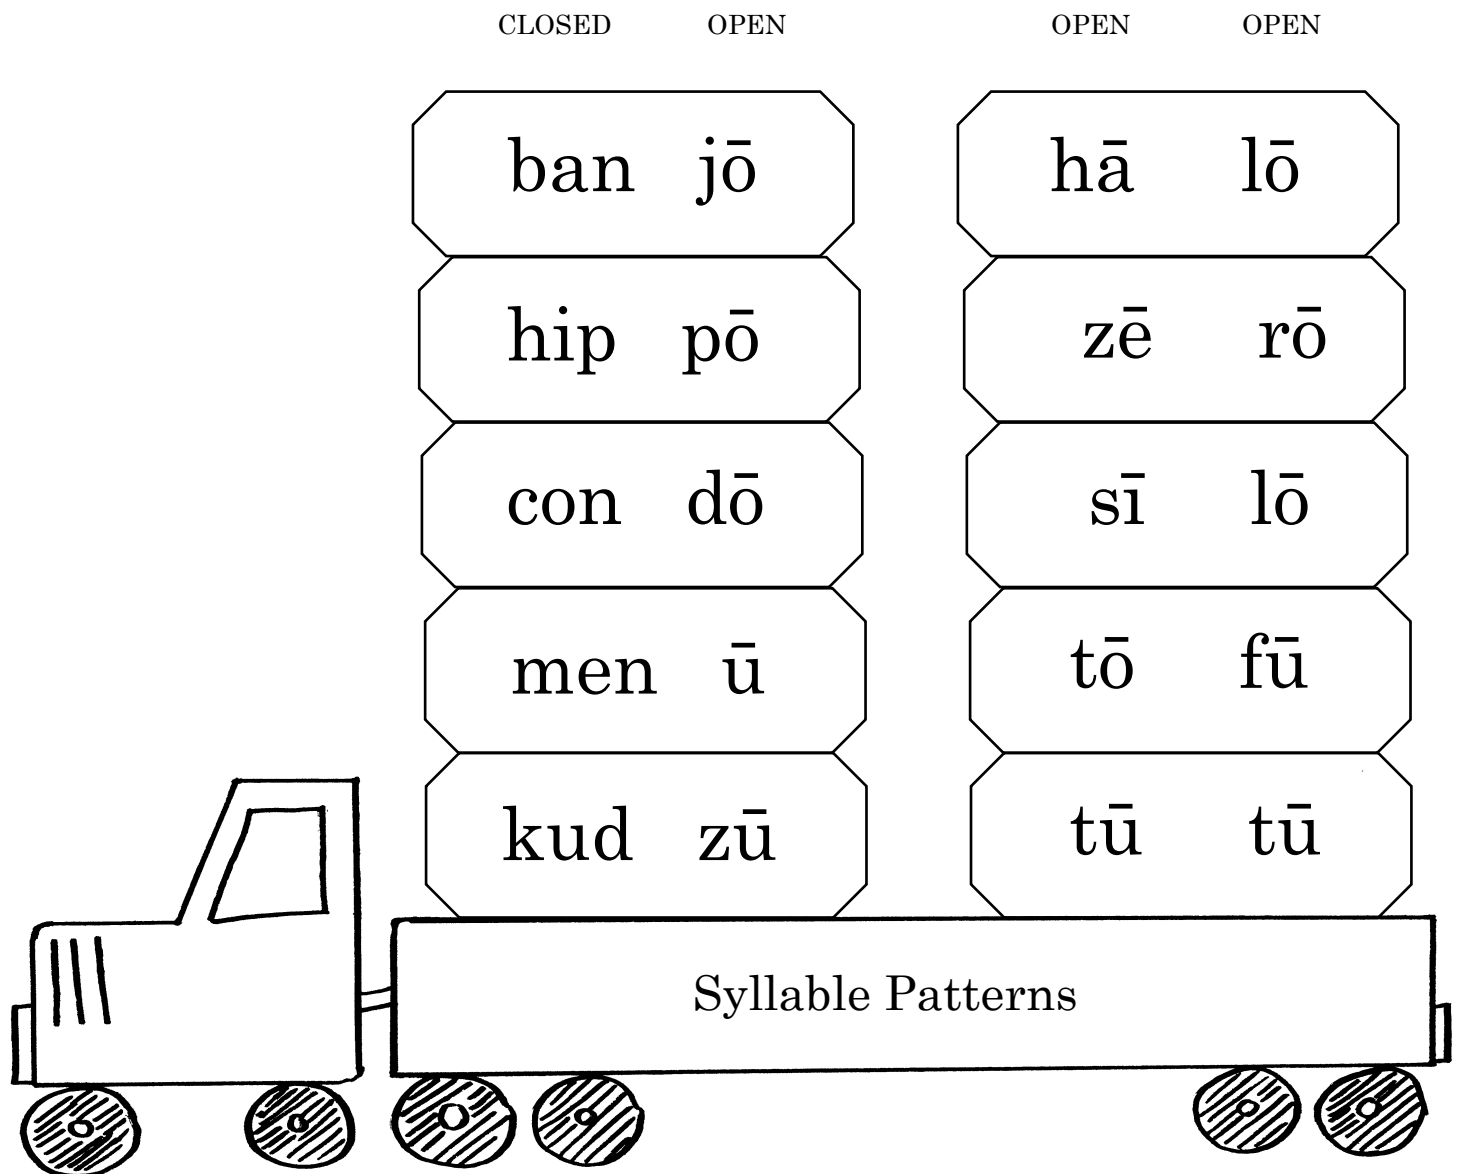

In two syllable words, some syllables are stressed, or emphasized, more than others. In a stressed syllable, the vowel usually has its expected sound. In an unstressed syllable, the vowel is often not pronounced in the usual way. It may hardly be heard at all. This is called the schwa sound. An arrow going under a vowel shows that it has the schwa sound. Go from one consonant to the next, skipping the vowel sound.

Open Syllables At The End Of A Word

A syllable in which a vowel is followed by a consonant is called a closed syllable. In closed syllables, the vowel usually represents its short vowel sound.

A syllable with a vowel at the end is called an open syllable. When a vowel is at the end of a syllable, it usually represents its long vowel sound.

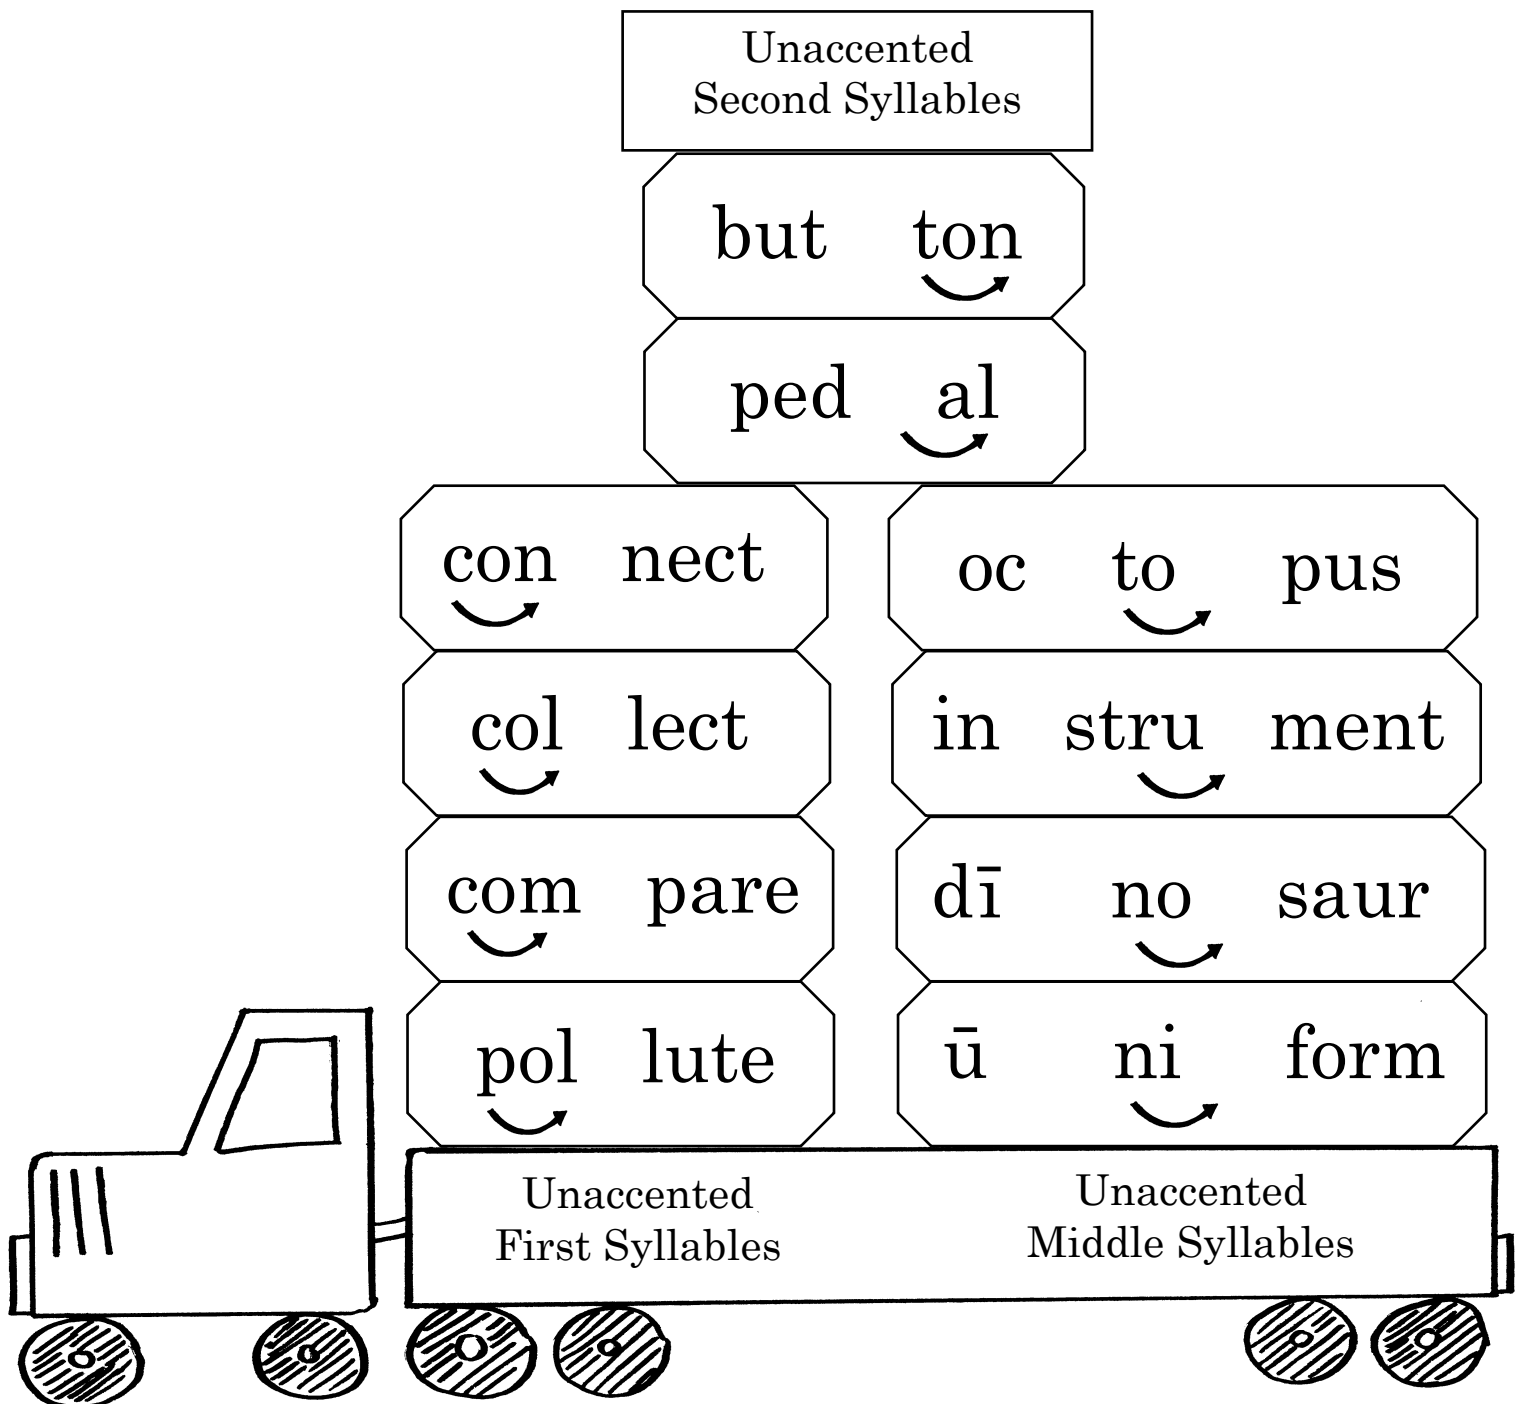

Silent E Syllables

Some words end with silent e syllables. These are ending syllables that have e as the last letter in the syllable. When you see a silent e syllable, pronounce the two consonants just as you would pronounce a consonant blend. Do not pronounce the e. Practice saying these silent e syllables.

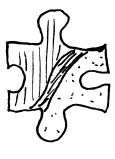

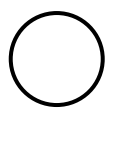

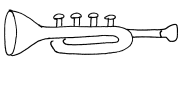

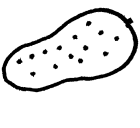

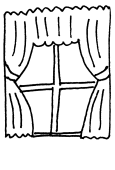

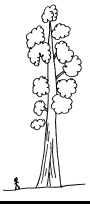

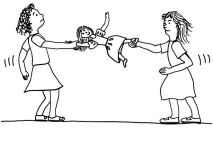

Unaccented Syllables

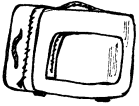

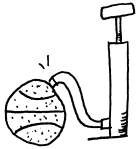

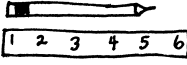

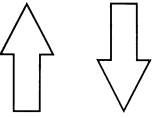

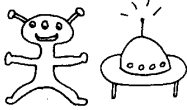

The vowels in unaccented syllables may hardly be pronounced at all. This applies to closed syllables and open syllables. This type of vowel has the “schwa” sound. The dictionary shows this sound as an upside down e: ə. In this program, an arrow going under a vowel shows that it has the schwa sound. Go from one consonant to the next, skipping the vowel sound.

Ending Syllables

	ble	bubble		zle	puzzle
	cle	circle	$\begin{array}{r} 3 \\ + 3 \\ \hline 6 \end{array}$	tion	addition
	dle	ladle	K. M. J.	tial	initials
	fle	waffle	$3 \overline{) 6} \begin{matrix} 2 \\ \swarrow \end{matrix}$	tient	quotient
	gle	bugle		tious	nutritious
	kle	pickle		tain	curtain
	ple	apple		ous	enormous
	sle	tussle		ious	furious
	tle	little		ate	pirate

Ending Syllables

	ace	necklace		cial	special
	age	baggage		cian	magician
	age	garage		cious	delicious
	ture tu	nature spatula		sure	pressure
	ive	detective		sure	measure
	ite	opposite		sual	unusual
	ice	notice		sion	mansion
	ine	medicine		sion	television
	ine	gasoline		sia sia	Russia freesia

Notice that these patterns represent the sounds shown when they start an ending syllable.

si = sh
su = sh

si = zh
su = zh

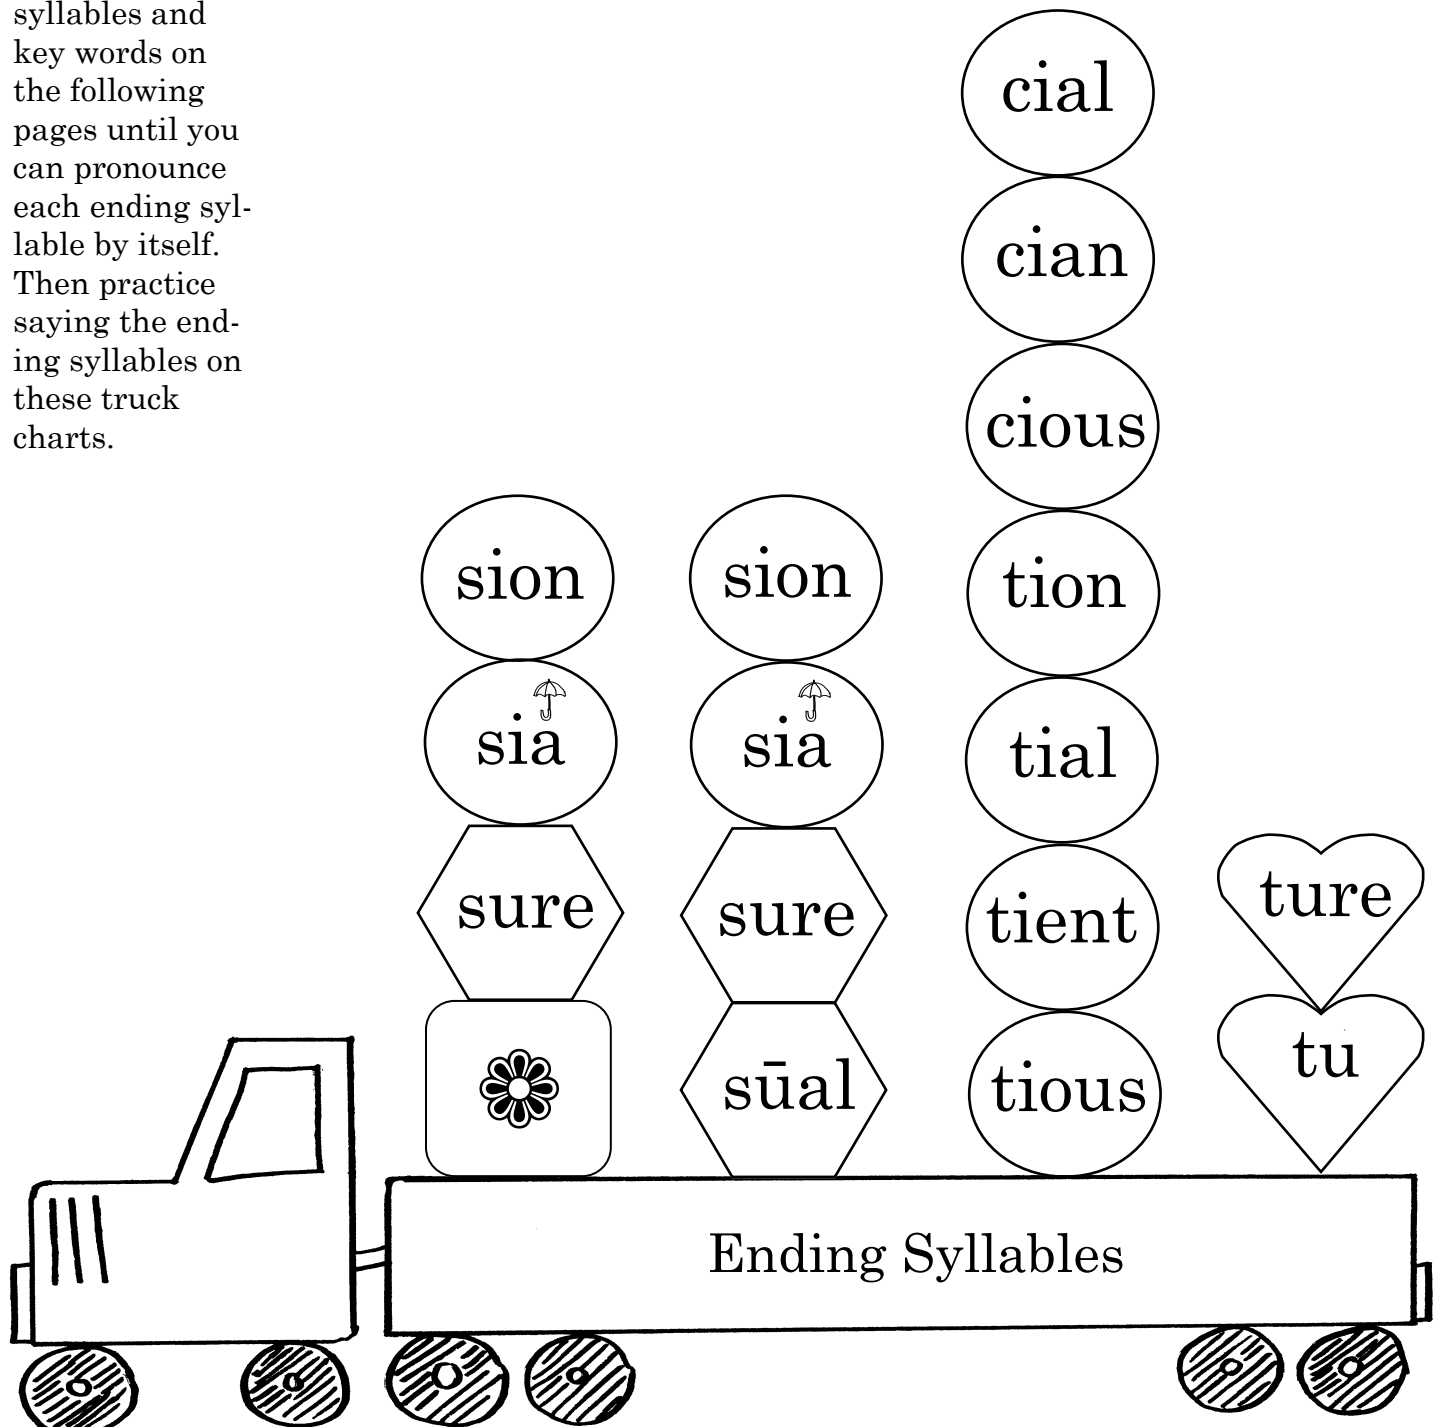

ci = sh
ti = sh

tu = ch

Say the ending syllables and key words on the following pages until you can pronounce each ending syllable by itself. Then practice saying the ending syllables on these truck charts.

The truck is carrying the following syllables and words:

- Trailer:** Ending Syllables
- Circle 1:** cial
- Circle 2:** cian
- Circle 3:** cious
- Circle 4:** tion
- Circle 5:** tial
- Circle 6:** tient
- Circle 7:** tious
- Circle 8:** sion
- Circle 9:** sion
- Circle 10:** sia (with umbrella icon)
- Circle 11:** sia (with umbrella icon)
- Circle 12:** sure
- Circle 13:** sure
- Circle 14:** sūal
- Circle 15:** ture
- Circle 16:** tu
- Circle 17:** sion
- Circle 18:** sia (with umbrella icon)
- Circle 19:** sure
- Circle 20:** sūal
- Circle 21:** ture
- Circle 22:** tu

In some ending syllables with a VCE pattern, instead of showing the long vowel sound, the vowel has almost no sound at all. This is called the schwa sound. You could say the silent e at the end is not doing its job to remind the first vowel to say its name. So we call these “lazy e” syllable patterns.

The ai pattern in _tain also shows the schwa sound. It is hardly pronounced at all.

In a silent e syllable, the letter e is always silent.

Practice saying the ending syllables and key words on the previous pages. Then say each ending syllable on this chart.

1. A xylophone is a musical instrument that is played by striking the bars with mallets.
2. The tiny tubes inside a plant stem that carry fluids upward are called xylem.
3. Xenon is a colorless gas found in the air in very small quantities.
4. A xebec is a small sailing ship, common in the Mediterranean years ago.
5. A xenolith is a rock fragment imbedded in another rock.
6. Xanthophyll is a yellow pigment found in plants, which causes the yellow color in leaves in the fall.
7. Xylene is a liquid made from coal tar, used as a solvent.

pterodactyl

1. My grandmother carefully placed her dishes in the cupboard.
2. Pterodactyls were flying reptiles that lived during the Jurassic period. They had a three-foot wingspan.
3. When you buy something, the clerk gives you a receipt that shows how much you spent.
4. Sometimes authors don't put their real name on the books they write. Instead, they use a pseudonym. For example, Theodor Seuss Geisel used the name Dr. Seuss.

Syllable Review

In a closed syllable, a consonant follows the vowel.

The vowel sound in a closed syllable
is usually a short vowel sound.

mit - ten

bas - ket

rob - in

In an open syllable, the vowel is at the end of the syllable.

The vowel sound in an open syllable
is usually a long vowel sound.

mū - sic

On this page you will practice reading two-syllable words. Each syllable contains a single vowel with a consonant at the end. This kind of syllable is called a closed syllable. Vowels in closed syllables usually represent their short vowel sounds. When you read two-syllable words, it's important to read one syllable at a time. Read the first syllable, and then the second syllable. Then read the whole word.

hot	dog	hotdog
cob	web	cobweb
com	bat	combat
bas	ket	basket
nap	kin	napkin
ban	dit	bandit
cac	tus	cactus
fab	ric	fabric
al	bum	album

Here are more two-syllable words to read. This time the two consonants in the middle of the word are different. Remember, when you read two-syllable words, it's important to read one syllable at a time. Notice that each syllable is a closed syllable. One vowel is followed by a consonant. So these syllables have the short vowel sound.

Here are more two-syllable words with closed syllables. These words have only one consonant between the vowels. Look at each syllable. The vowel in every syllable is followed by a consonant. Notice that sometimes the vowel is at the beginning of the syllable. As long as the vowel has a consonant **after** it, the syllable is closed. Remember that in a closed syllable, the vowel sound is usually short. Notice the letter z placed above the letter s. This tells you to use the /z/ sound for the letter s in that word.

The second syllable in each word is unaccented. It is pronounced quickly, with less emphasis. Notice that an arrow is pointing from one consonant to the next, skipping the vowel. The arrow tells us to slide past the vowel, hardly saying it at all. This type of vowel is called the schwa sound. It is represented by an upside down ə.

ra	ven	raven
ha	ven	haven
la	tex	latex
Da	vid	David
ba	sic	basic
a	men	amen
ba	con ↪	bacon
a	pron ↪	apron
la	bel ↪	label
na	val ↪	naval
va	cant ↪	vacant

In these words, a vowel is at the end of the first syllable. This kind of syllable is called an open syllable. A vowel in an open syllable usually represents its long vowel sound. To read these words, read the first syllable using a long vowel sound. Read the second syllable using a short vowel sound, or the schwa sound if you see an arrow. Then put the syllables together to read the whole word.

be	gin	begin
be	gan	began
se	cret	secret
Ve	nus	Venus
e	ven	even
re	lax	relax
re	fund	refund
e	gret	egret
e	vil ↪	evil
le	gal ↪	legal
e	qual ↪	equal

In these words, a vowel is at the end of the first syllable. This kind of syllable is called an open syllable. A vowel in an open syllable usually represents its long vowel sound. To read these words, read the first syllable using a long vowel sound. Read the second syllable using a short vowel sound, or the schwa sound if you see an arrow. Then put the syllables together to read the whole word.

li	lac	lilac

In these words, the first syllable is an open syllable, with a long vowel sound, and the second syllable is a closed syllable, with a short vowel sound or the schwa sound.

mu	sic	music
tu	lip	tulip
tu	nic	tunic
u	nit	unit
fu	ton	futon
cu	pid	cupid
hu	mid	humid
cu	bic	cubic
fu	el	fuel
pu	pil	pupil
stu	dent	student
hu	man	human

In these words, the first syllable is an open syllable, with a long vowel sound, and the second syllable is a closed syllable, with a short vowel sound or the schwa sound. The long u sound may be pronounced as u/tulip or u/music, depending on the word. If you're not sure which sound to use, try both sounds and see which way makes sense when you pronounce it.

Adjacent Vowels In Two Separate Syllables

The word adjacent means side by side. These words have adjacent vowels. Sometimes adjacent vowels work together to represent a single vowel sound, as in the words rain, feet, and moon. However, the adjacent vowels in the words on this page are in two separate syllables. They do not work together. The first vowel is at the end of the syllable; it represents its long vowel sound. The second vowel is in a closed syllable, so it represents the short vowel sound.

Advanced Ending Syllables

Syllables With ti, ci, si = sh

Syllables With tu = ch

"Lazy E" Syllables

Unaccented V_E Syllables With A Schwa Sound

Silent E Syllables

Advanced Ending Syllables

The syllables in this section cannot be sounded out in the usual way. However there are some tricks to remembering how to pronounce them. Remind students that these syllables are used at the end of words, not at the beginning.

Syllables That Begin With A Consonant Digraph Sound

1. Syllables that begin with ti and ci start with the sh/ship sound.
2. Syllables that begin with si may begin with the /sh/ sound or they may begin with the /zh/ sound as in vision.
3. Syllables that begin with su may begin with the /sh/ or the /zh/ sound.
4. Syllables that begin with tu begin with the ch/chicken sound.

Syllables With A Vowel-Consonant-E Pattern (Lazy E)

Several ending syllables have a VCE pattern, but they do not have a long vowel sound, as you would expect in a one syllable word. You can hardly hear the vowel sound at all. Examples are pirate, medicine, and baggage.

Silent E Syllables

A number of ending syllables contain two consonants (one consonant plus the letter l) followed by the letter e. Examples are puzzle, little, and waffle. The letter e must be in the last syllable, since all syllables must have at least one vowel. However, the e is not heard; it is silent.

Studying The Syllables

Students should be familiar with the previous syllable study pages, including open syllables, closed syllables, and unaccented middle syllables. They should also know all of the vowel patterns taught in *Phonics Patterns For Beginning Readers, Books 1-8*.

Introduce and practice the ending syllable charts in the chart section at the beginning of this book. First study the chart that shows each ending syllable along with a key word and picture. Model the pronunciation of each ending syllable and key word, and have the students repeat. Practice daily until students can say the entire set of ending syllables and key words independently, in unison.

Next study the charts that show all of the ending syllables arranged on trucks. Students should practice pronouncing each ending syllable. This will be more of a challenge because there are no key words. Model and explain as needed.

Advanced Consonant Patterns

In Alphabetical Order

1. The letter v is not used at the end of English words. The _ve pattern is used instead.
2. When a word with a two-letter vowel pattern ends with the /s/ or /z/ sound, the letters _se are used to represent that sound. For example, house, pause, moose, noise, horse, verse. This makes it clear that the word is not in the plural form.
3. The same thing occurs with short vowel words that have both a consonant and an /s/ sound after the vowel: rinse, sense, pulse, lapse.
4. The wh pattern sometimes represents the /h/ sound when it is followed by the letter o.

b[×]ū

In the *bu* pattern, the *u* is silent.
Just pronounce the *b*.

Overview Of Sound City Reading Books

A Sound Story About Audrey And Brad

Students are introduced to the sounds of the letters of the alphabet, including consonant, consonant digraph, and vowel sounds, using a series of sound pictures presented as part of a story.

Learning the Alphabet, Workbooks 1 And 2

Students learn to recognize the alphabet letters and give their sounds, while developing phonemic awareness skills. Handwriting readiness exercises are included.

Exploring Sounds In Words, Exploring Sounds In Words Manuscript Handwriting, and Picture Dictionary A-Z

Students use these three books together. They learn to write alphabet letters independently, identify beginning and ending sounds in words, and slide two letter sounds together smoothly. Students put plastic letters in the correct sequence to form two-letter combinations and short vowel words.

Phonemic Awareness Picture Pages

This book is for older students who have not yet been exposed to phonemic awareness exercises. It has just the phonemic awareness pages from the *Learning The Alphabet* and *Exploring Sounds In Words* books.

Rhyming Short Vowel Words And Sentences or Mixed Short Vowel Words And Sentences or Two-Page Short Vowel Words And Sentences

Students read and spell color-coded short vowel words, studying ten words at a time. They play the “robot” game to match words and pictures. Students learn a few sight words and begin reading short vowel sentences.

Basic Short Vowels

Students read illustrated short vowel words and sentences. This book includes both rhyming word lists and word lists that have the same beginning sounds to help students develop fluency. It has all black print.

Short Vowel Booklets

These ten *Short Vowel Booklets* are 4¼ by 5½ inches, with either 24 or 28 pages. Students read a few rhyming short vowel words, then turn the page to see the same words with pictures. Illustrated sentences are also included.

Color-Coded Short Vowel Lists and Color-Coded Phonetic Lists

Students practice decoding by reading words with color-coded vowels in both rhyming and same beginning sound word lists. This combination helps students learn to decode words confidently.

Phonetic Words And Stories, Books 1 - 8

Students learn to read words with various vowel patterns and consonant patterns. They study ten color-coded words for each pattern. After learning a series of new patterns, students read a short practice story containing words with those patterns.

Basic Phonics Patterns, Books 1, 2, 3, 4, 5-6, 7-8

These books follow the same skill sequence as the *Phonetic Words And Stories* books, but they are in a different format with all black print. Students read expanded word lists along with sentences for each new set of phonetic patterns, followed by the same easy practice stories. The words, sentences, and stories are illustrated.

Know The Phonetic Code, Volumes 1-3

Students study the same phonics patterns and stories in smaller, all black print, in the same skill sequence found in *Phonetic Words And Stories, Books 1-8*. The word lists include two-syllable words from the beginning of the sequence. Only the stories are illustrated.

Advanced Phonics Patterns From Children's Books, and Know The Phonetic Code No Stories

Students learn less common letter patterns and more syllable and suffix patterns. Instruction is coordinated with a number of popular children's picture books (obtained separately), from first through fourth grade levels. The *Know The Phonetic Code No Stories* book provides a complete review of the patterns previously taught.
