### Instructions

#### Pacing

Teach one new pattern (sh, th, ck) or one new set of consonant blends (amp, est, st, br) per day. Or, teach two or more patterns per day, <u>if</u> students are able to master the material. Be sure to practice every day so that students can remember the sounds for the patterns.

#### **Materials Needed**

*Decoding Practice* book, phonogram cards, sight word cards, pencils and lined paper. For a whole class, print the enlarged version of the charts (available at www.soundcityreading.com) and post them on the wall.

#### Daily Lesson Plan: Eight Easy Steps

- 1. **Teach A New Pattern:** Show the card, model the sound, and have each student repeat individually. When teaching a new set of consonant blends, instead of using flashcards, model the sounds from the truck chart, and have students repeat.
- 2. **Sound Chart Review:** Use the charts in this book. Do each chart in order. Go from left to right, starting with the top row. Point to each letter or letter pattern and model the sound. Students repeat. Say both the sound and key word for each pattern when you begin each book. After a few days, just say the sounds and skip the key words. As soon as possible, point to the patterns and let the students say the sounds without any modeling from you.

Because they are organized visually into logical groupings on the page, with picture cues to help students remember the sounds, the sound charts provide students with a mental framework for understanding and remembering all of the phonogram patterns. Students start with just a few patterns; in each succeeding book new patterns are added to the charts. Students master the patterns in one book before going on to the next book.

3. **Sound Card Review:** In this step, students must remember the sound for each letter pattern without the benefit of picture cues. Go through all of the cards that have been taught, in order, ending with the newest card. Students say the sound or sounds (if there are more than one) for each pattern. Do not use key words.

This step is important because students are learning to recognize the letter patterns without the benefit of the picture charts. They are responding with the sounds only, without using key words. This is exactly what they will need to do to read words.

4. **Apply The New Pattern:** Students read the words and sentences with the new pattern.

5. **New Sight Word Intro:** Introduce any new sight words that are listed on the page, after students have read the phonetic words for that pattern. Show the card, say the word, and have students repeat in unison. Call on several students to make up a sentence using the word.

Sight words are taught as exceptions to the rule. The new pattern does not represent the expected sound. Remind students that these words cannot be "sounded out" in the usual way. They must be able to read and write the words from memory.

6. **Spelling Dictation:** Display the card for the new pattern. Dictate several letters and phonogram patterns, including the new pattern. Dictate ten of the new words. Students pronounce the word and then say the individual sounds while they write the related letters on lined paper. Show any new sight word cards, say each word, and have students copy them. These words cannot be sounded out and must be learned visually. For sight words, students may say the letter names (instead of sounds) as they write them. You may also want to dictate a few words with suffix patterns. Finally, dictate a sentence containing words that have been studied during the dictation period.

Students should not be able to see the words during the dictation period. It's important for them to listen and figure out the sounds in the word for themselves. They then translate the sounds into the word by writing the letters. If they forget the new pattern, they can look at the card on display to help them remember it.

- 7. **Sight Word Review:** Students read all of the sight words that have been taught, in unison. Don't read words that have not been introduced. Use sight word flashcards or the sight word list at the end of this book.
- 8. **Read The Story:** If there is a new story, have students read it. If not, have them reread the previous story. If the stories are short, reread several review stories.

Work towards mastery. Keep practicing until students can read each page confidently, without hesitation. Ask questions frequently to make sure students understand and relate to the story.

#### Troubleshooting

1. If students have difficulty reading the words, do the spelling dictation (step six) before reading the words (step 4). This may seem counterintuitive, but in practice it works very well. In order to write the word, students must analyze the sounds in the word carefully, and use the letters in the new pattern while writing the word. This is a multi-sensory process; students say the sounds, hear the sounds, write the letters, and see the letters. Using this combination of senses all at the same time lays the groundwork for students to understand the process of phonetic coding (spelling) and decoding (reading), making it easier to read the words.

- 2. If students have difficulty spelling the words, call on individual students to say the sounds one at a time, while arranging moveable letter cards in a pocket chart to build the word. Then cover the word and have all of the students say the sounds again while writing the word on paper. Or, pass out sets of plastic letters, and have students spell each word with plastic letters before writing it.
- 3. If students have difficulty reading the stories, read them aloud first, discuss them, and then have students read them. If necessary, read one line at a time, and have students echo read each line in unison. Then listen while students reread the whole story aloud, reading together. Finally, have students take turns reading to each other in pairs. Send the story home to read aloud for homework.

#### More Trouble Shooting

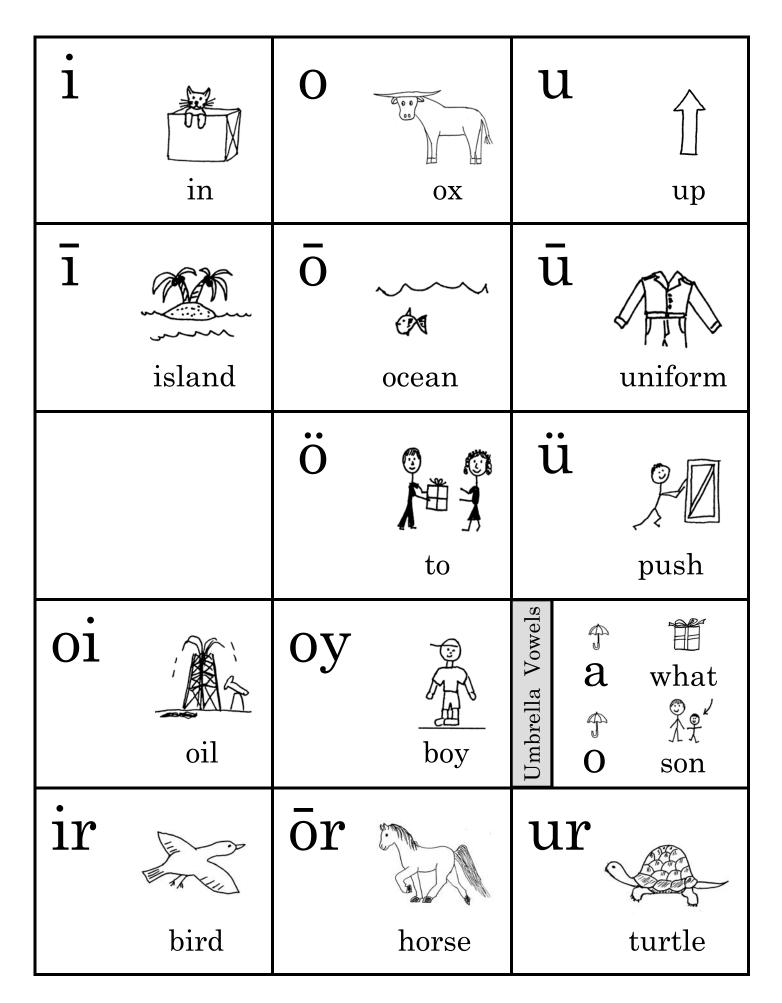

If the above steps don't solve the problem, students will need more help with segmenting (hearing the separate sounds in words) and decoding (seeing the individual patterns in words and translating them into sounds to form a word). On this case, students can study the same letter patterns, words, and stories in a separate set of books, *Phonics Patterns And Stories*, which are designed to make the learning process easier. In these books, students play a listening game (the robot game) using pictures and words in the book to prepare them to read each new set of words. The game develops their ability to hear the separate sounds in words. The words are also color-coded. Each vowel sound is represented in a particular color. For example, all the patterns that represent the long a sound (ai/ rain, av/play, a e/safe), are printed in dark red. This helps students see the pattern as a distinct unit within the words. Students also relate the sound for each pattern to environmental sound pictures from a sound story, instead of using key words. Although this is approach is a little more challenging for adults, it works perfectly for students who are having trouble grasping the relationship between letter patterns and sounds.

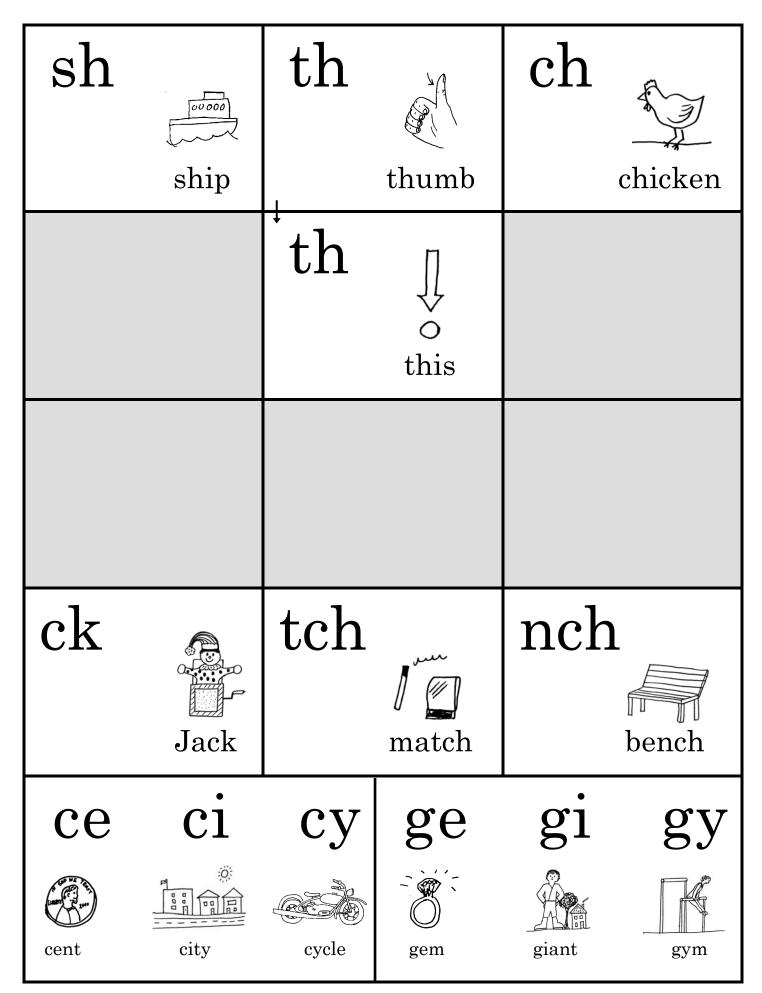

After students complete each lesson in the *Phonics Patterns And Stories* books, the teacher can send home pages from this *Decoding Practice* book for extra practice at home.

# A Bird

This girl has a bird.

- It is a white bird.
- The bird is not wild.
- It is tame.
- The bird is a pet.
- The girl likes the bird. The bird likes the girl. The bird can pick up a pencil. And it can dance.

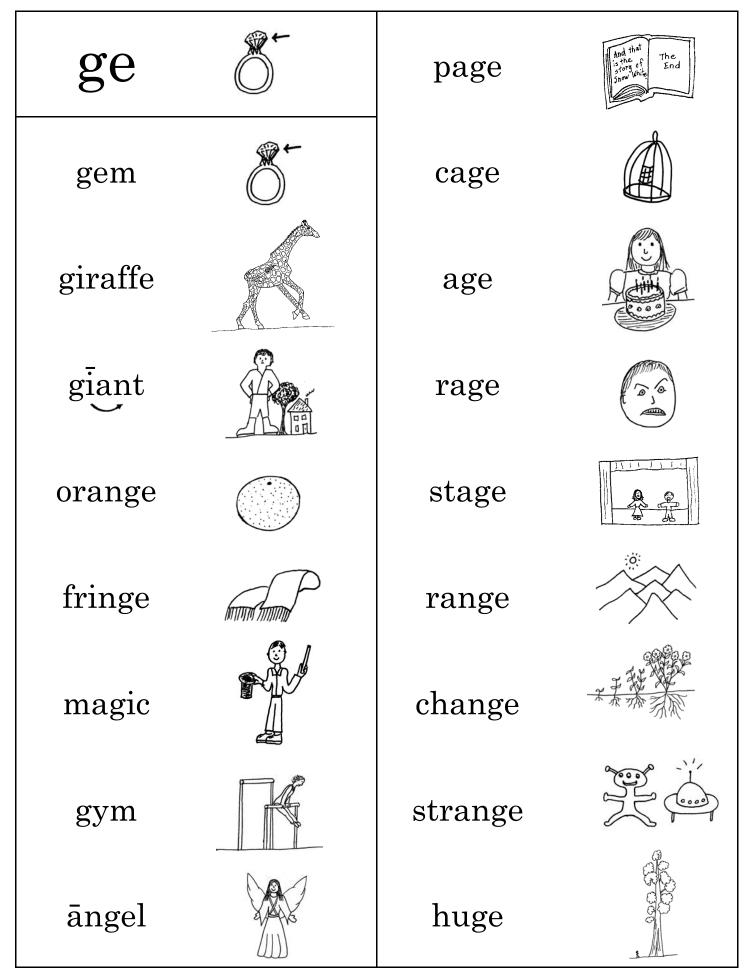

The bird likes to sit on the girl's shirt sleeve. The bird chirps at the girl. The girl gives it seeds.

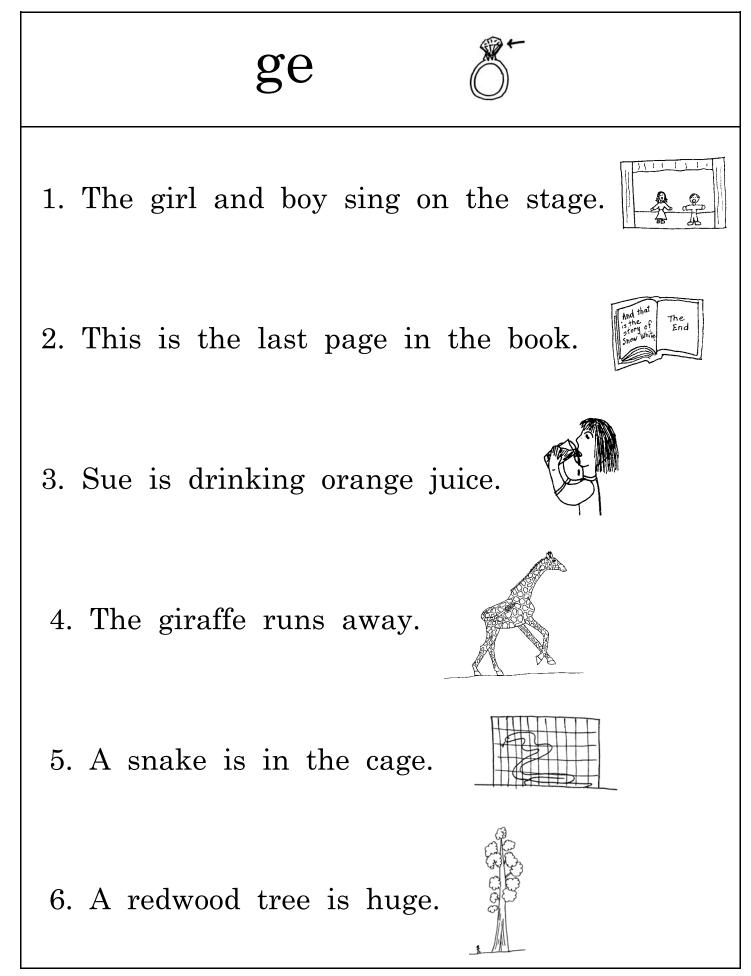

- The girl is glad to have a bird. The bird and the girl have a lot of fun.
- The End

Introduce sight word: sponge

## Jake's Magic Show

This is Jake. He can do magic tricks on a stage.

He can pull a rabbit out of a hat.

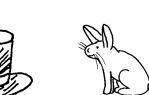

He can get a bird out of a cage while the cage is still shut.

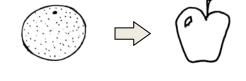

And he can change an orange into an apple.

Jake likes to do his magic tricks!

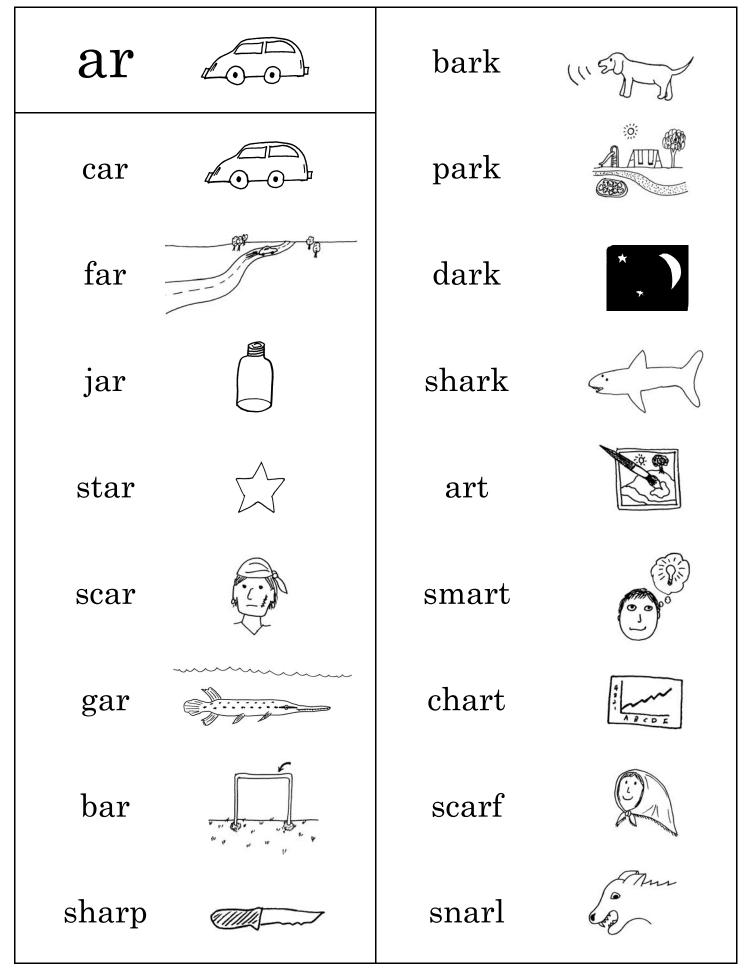

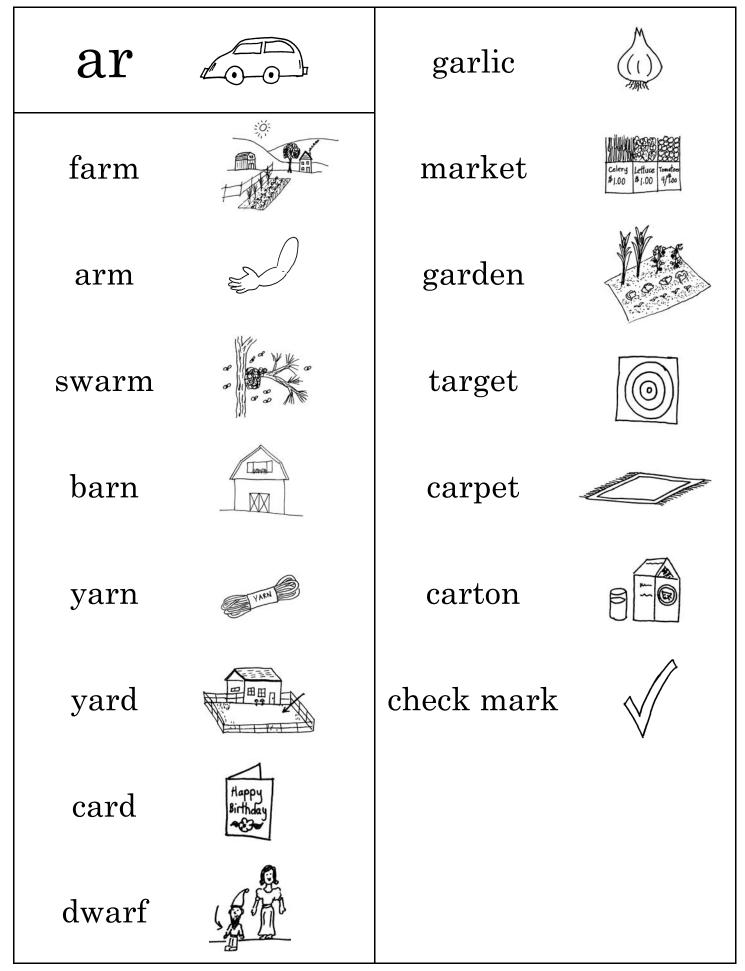

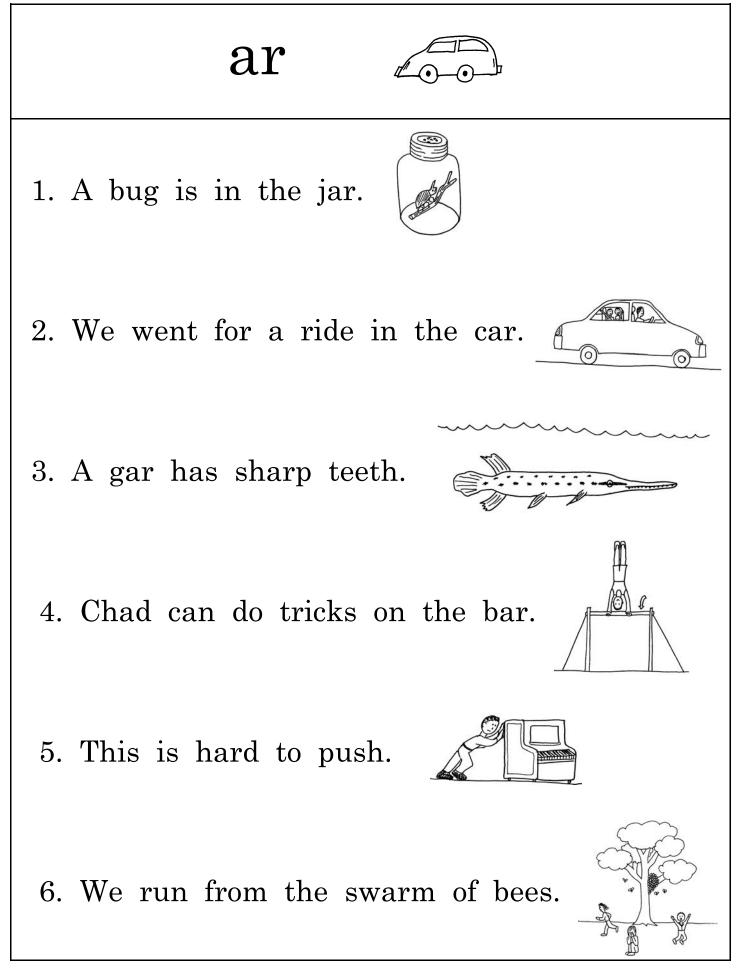

Introduce sight word: are.

 ${\hbox{$\widehat{\mathbb C}$}}$  2014 by Kathryn J. Davis

## Mark's Car

Mark has a car.

It is a large red car.

The car can go fast.

Mark likes to drive his car. Mark says, "It is hard to drive a car, but I am smart. I am safe when I drive."

- First, he starts the car.
- Next, he drives to his job.
- Then, he parks the car.

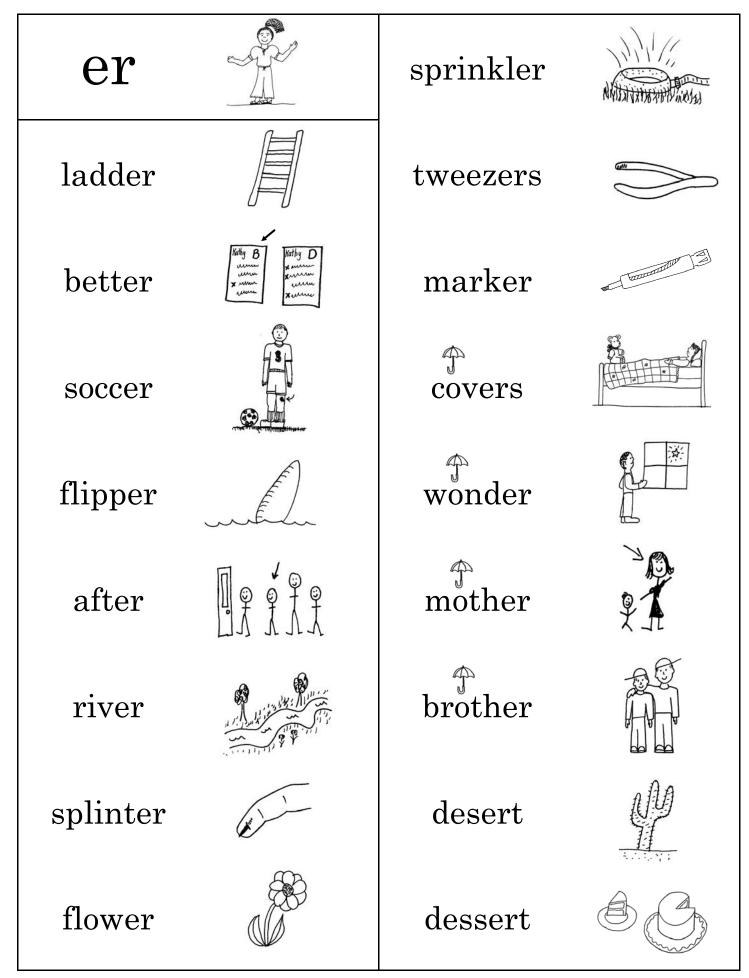

At the end of the day, it is dark. It is night time. So Mark drives home with the lights on.

The End

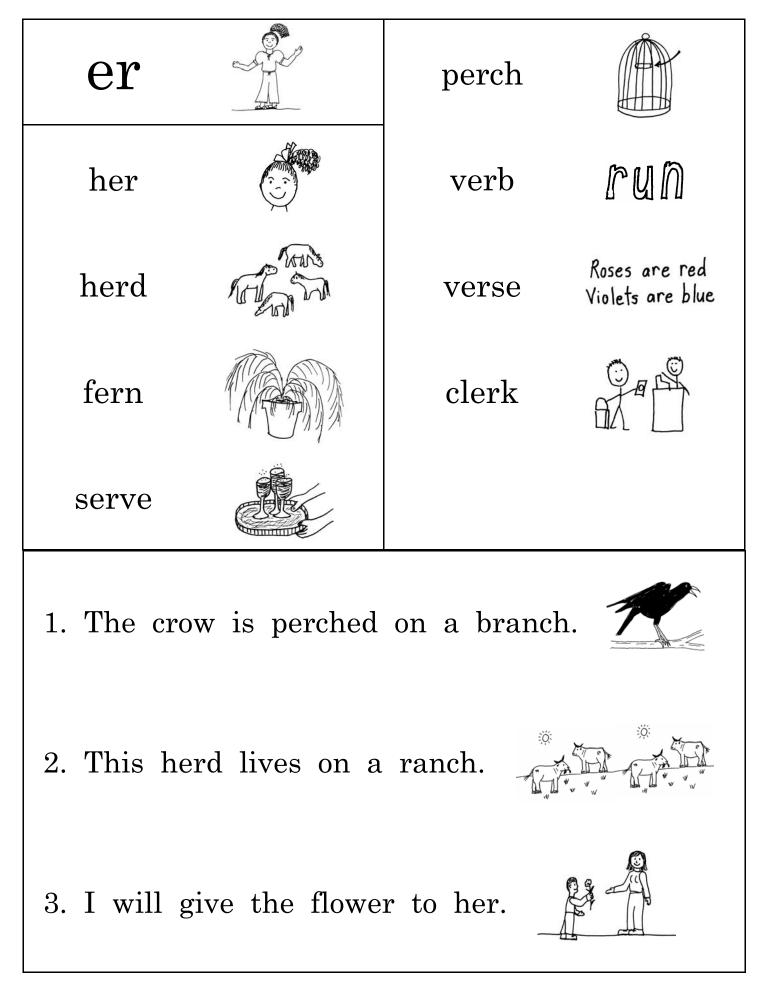

Introduce sight words: cover, wonder, answer, other, mother, brother.

#### The Life Of A Turtle

This is a turtle. She has a hard shell. The shell keeps her safe. Some times she sits on

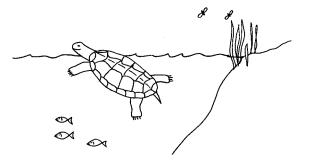

a rock in the warm sun.

The turtle lives at a lake.

She can not go fast on the land.

But she can swim well.

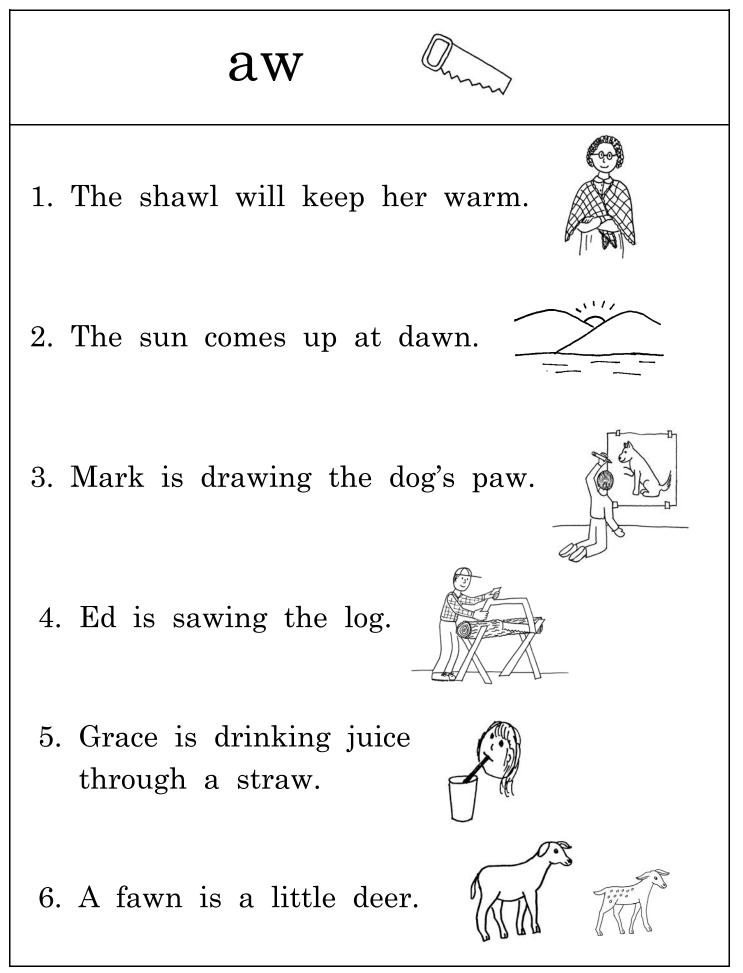

In the summer, the turtle catches bugs and fish in the lake.

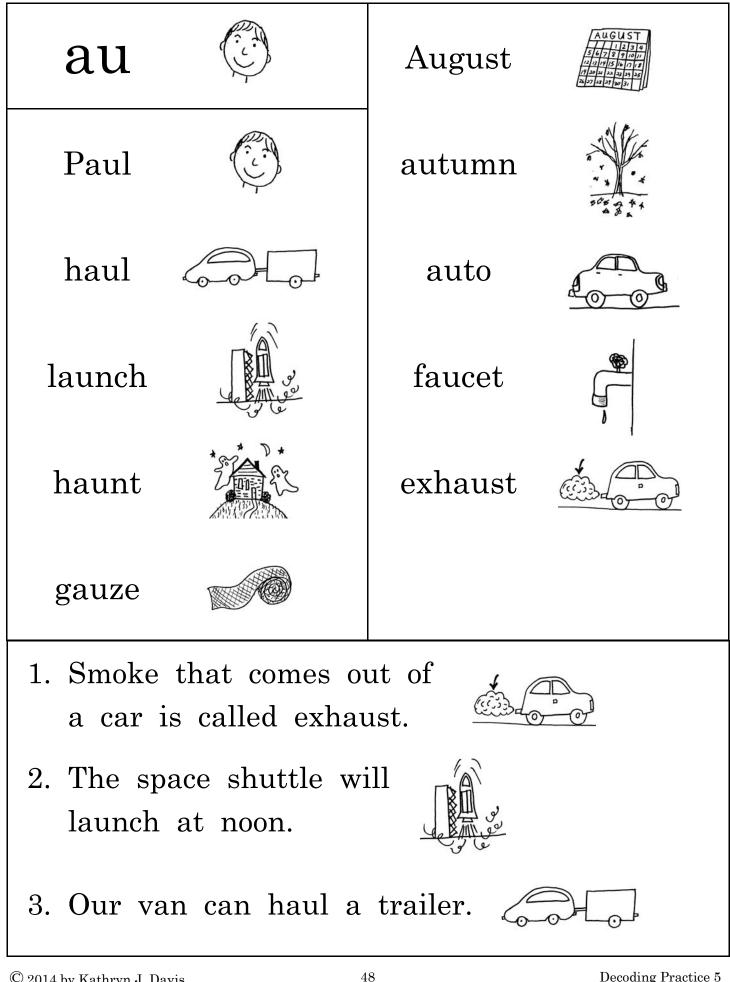

In the winter, when it is cold, the turtle goes to the bottom of the lake. She digs down into the mud. She does not move. She just sleeps. She stays there CT THE until spring time. Then she wakes up and starts to swim in the lake again. When it gets warm, the turtle goes up on the land. She digs a hole. She lays her eggs in the hole. Then she covers them up. Some day, little turtles will hatch from the eggs.

The End

1. Some birds have sharp claws.				

#### Home

A hawk has a home on a cliff. A fish has a home in a pond. A fawn has a home in the trees. An ant has a home on the lawn. A snail has a home on a stone. A bird has a home in a nest. ATHON THE WALLET A rabbit has a home in a hole. But Paul's home is the best. 7 🖾 

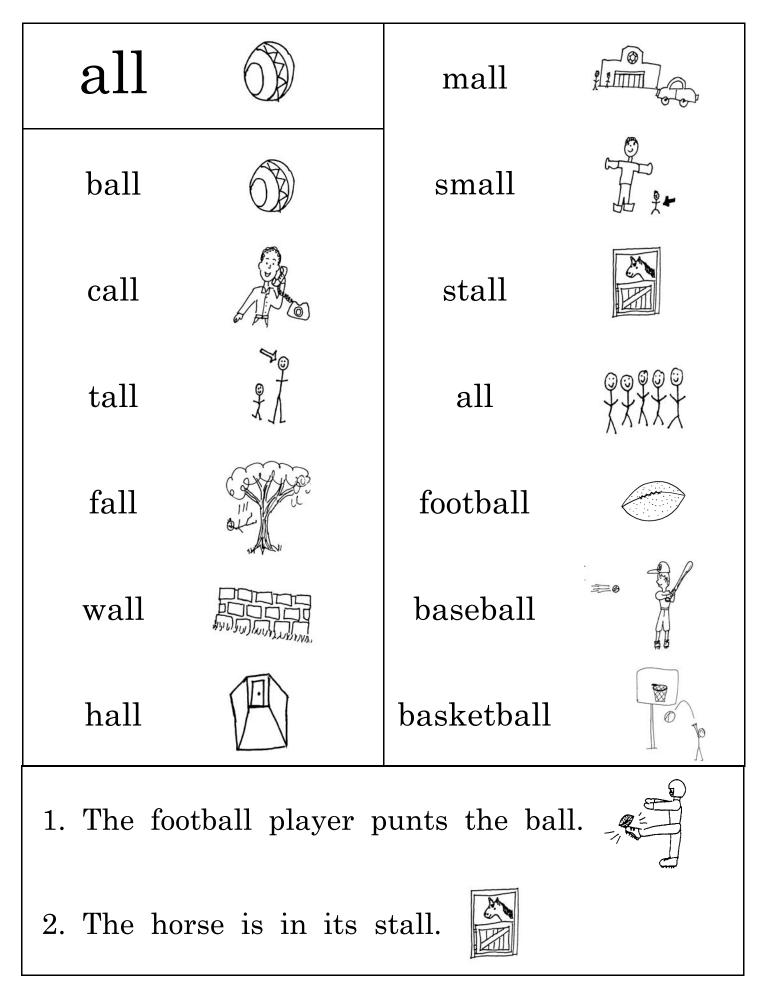

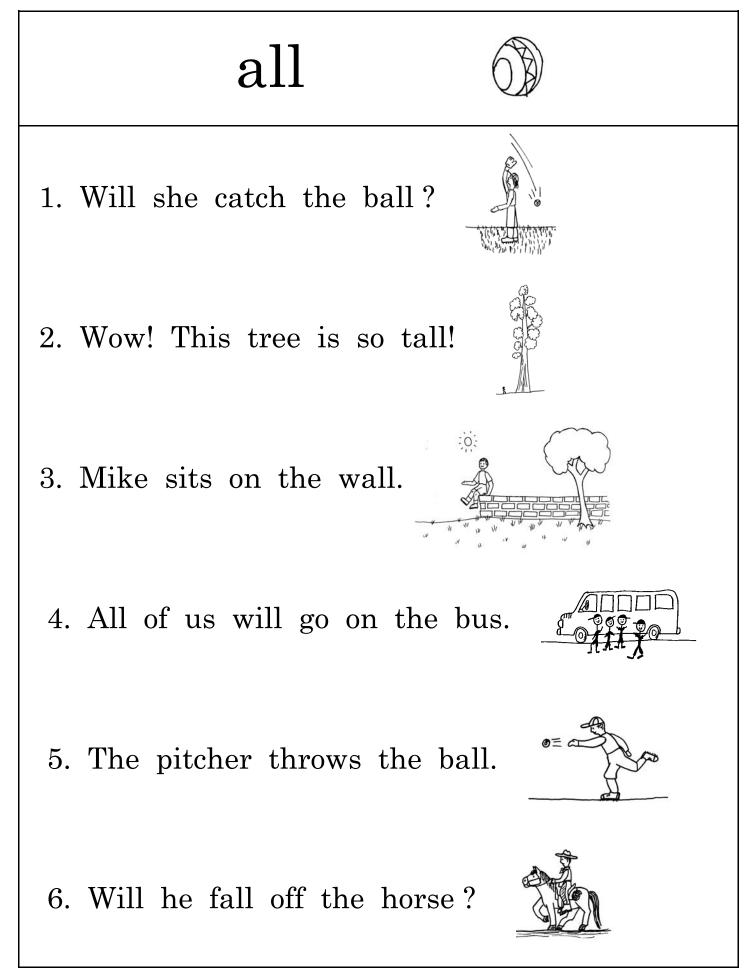

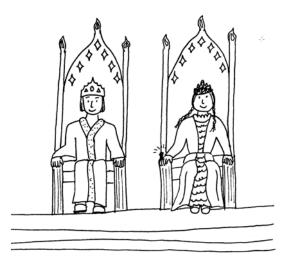

### The Dragon And The Ring

- This is the queen.
- And this is the king.
- The king has a crown.
- The queen has a ring.

The king is fair. He sits on a throne. The queen's gold ring has a red stone.

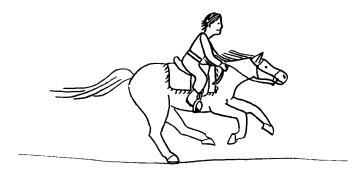

The king and the

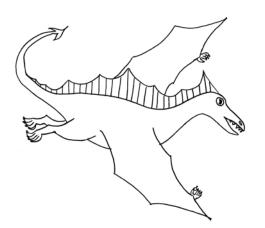

queen go to sleep.

A dragon takes the ring.

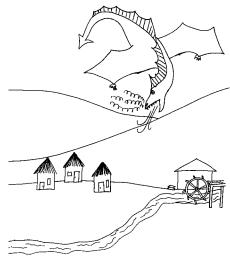

The queen begins to weep.

The king jumps up onto his steed. He follows the dragon. He goes at top speed.

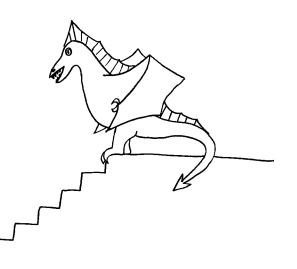

The dragon has scales, a long tail, and wings. The dragon has fangs, and he does bad things.

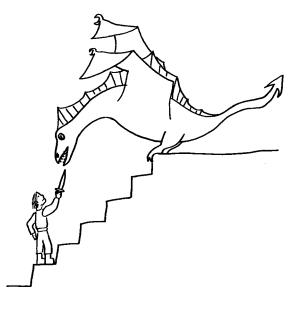

He soars above the town. He goes past the mill.

as he sails up the hill.

The dragon is back at his hilltop lair. He sits and he waits at the top of the stairs.

The dragon is strong. The dragon is tall. Next to the dragon, the king is so small.

The king throws his sword at the dragon's chest. The dragon falls.

Now the king can rest.

The king brings the ring back to the queen. The queen is glad and so is

the king.

Now this is how this fair tale ends. That's all there is. No more.

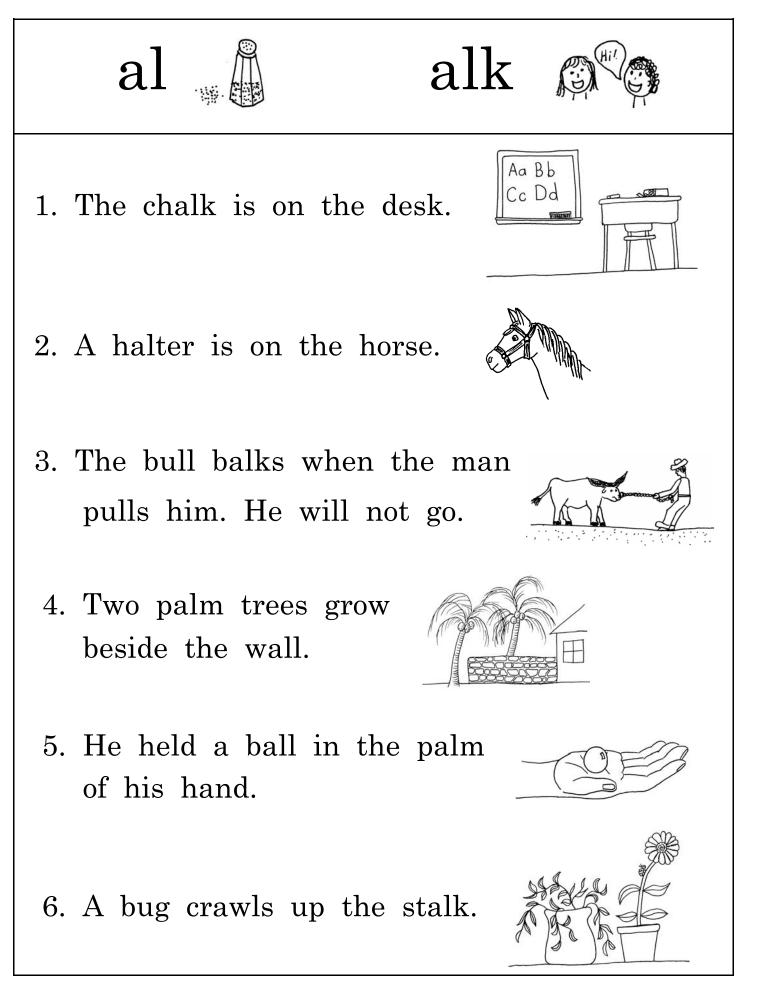

The End.

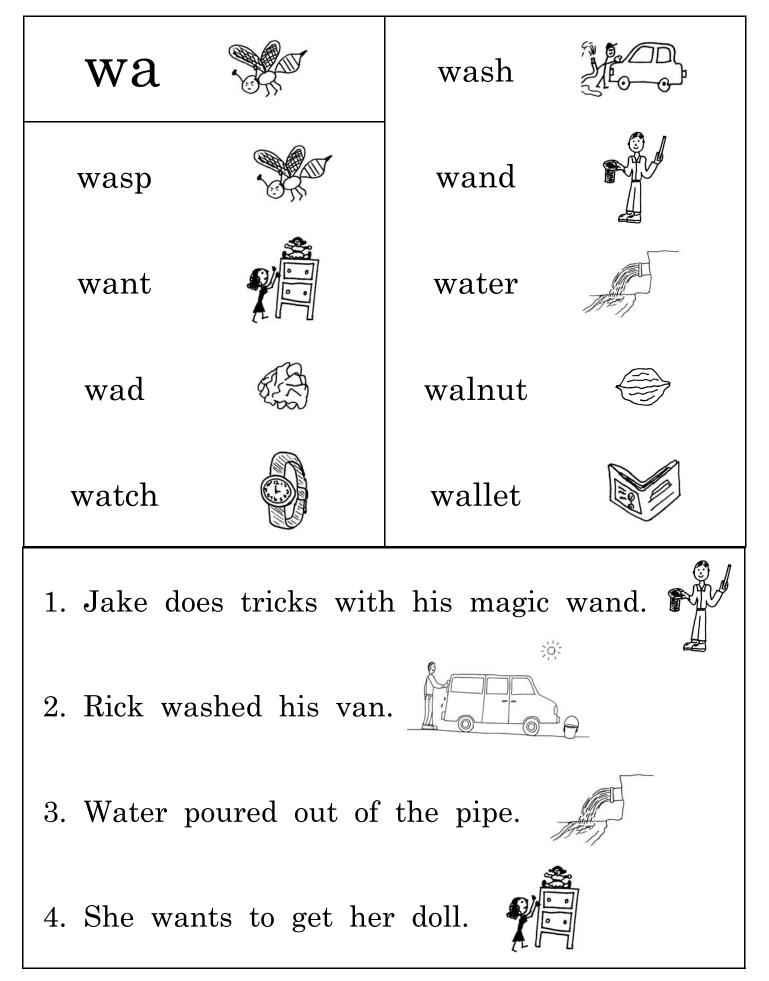

Introduce sight words: almost, although, half, calf.

# Contractions

Sometimes two words are put together to make one word, but one of the letters gets thrown away. A mark called an apostrophe is put in the place of the missing letter. These words are called contractions.

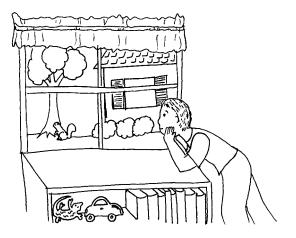

## A Trip To The Farm

It was hot.

"Walter," called Mom,

"do you want to go

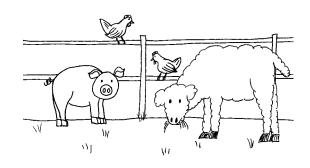

to a farm?"

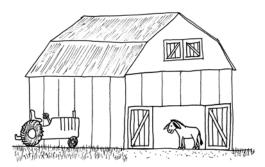

Walter's Mom packed lunch in a basket. Then Walter and his mom got in the car and drove to a farm.

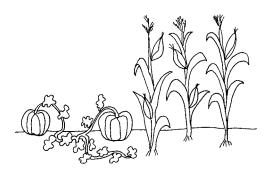

At the farm, Walter saw pigs, chickens, and sheep.

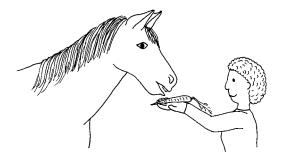

He saw a big, red barn.

He saw pumpkins and tall stalks of corn in a garden.

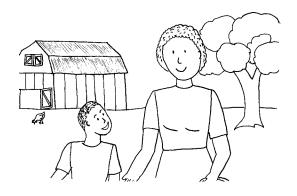

- Walter's Mom fed
- a large, white horse.

Walter got to ride on the horse. The horse walked and walked. The horse did not want to stop. Walter did not want to stop. But then his mom called, "Let's wash our hands for lunch."

Walter and his mom sat under a tree and had a picnic lunch.

Then it was time to go home. Walter had a lot of fun at the farm.
